Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE WELD THAT HELD. THE GREATEST IMPROVEMENT in poultry fence construction ever known was made when electric welding was introduced. It sounded the death knell of the light, flimsy netting and of light poultry fences of all kinds. This radical change over old methods was made by the Pittsburgh Steel Company and was incorporated into its now celebrated "Pittsburgh Perfect" fencing for hogs, sheep, cattle, farm purposes and for lawns and poultry. This fencing is manufactured exclusively by them. Electric welding also placed wraps, clamps and ties in the waste wire class. "Pittsburgh Perfect" poultry fences as well as all farm and lawn fences under this brand, are now being made from a special quality of open hearth wire, manufactured in the immense addition to our mills recently built. It is now heavily galvanized by an improved process. All stay wires are the same size as line wires, and is the superior of any poultry fence made. The quality of the open hearth wire, conceded superior to Bessemer steel; the galvanizing, applied by our special process; and the large wires, are all of vital importance in giving service and durability. "Pittsburgh Perfect" Electrically Welded Fences are made in every height and weight for every use. Insist upon getting only "Pittsburgh Perfect" fence. Has NO Waste Wire like this! Wraps, Clamps, Ties. D. S. Gehr, The Hardware Man on the Corner, Westminster, Maryland.
