LOSS FROM FIRE IS \$2,500.
Large Barn, Straw Stack, Hog Pen and Creamery of the Charles Schaefer Estate Destroyed on Wednesday.

Fire which was first discovered by Jacob Fitz in the top of a straw stack between 2 and 3 o'clock Wednesday afternoon destroyed the barn, hog pen and creamery on the farm belonging to the Charles Schaefer estate, about one-half mile back of Krider's Reformed Church. The wheat of the farmer, William Bell, was being threshed and it is supposed that the fire originated from the engine. Most of the wheat had been hauled direct from the thrasher to elevators in this city. The stack was about 20 feet from the barn. The Westminster Fire Company responded promptly to the call and hurried to the spot in automobiles, taking the four fire extinguishers with them, which however, were not used.

About 75 bushels of wheat and a quantity of hay were destroyed. The creamery, within 20 feet of the residence was burned, and it was feared that the residence would also be destroyed and all the furniture was quickly removed, but when it was pronounced safe, the neighbors and other friends assisted in putting it back. The loss is estimated at about \$2,500, which is covered by insurance.

CARROLL'S WHEAT CROP.

Harvest is Ending and the Yield is Large.
Harvest is about ending in this county, and reports indicate that the wheat crop is perhaps slightly better than an average in the yield per acre. It is noticeable that, prompted by the fair prices prevailing during the last year or two, a larger acreage than usual was sown to this grain in this county, and the aggregate yield will, therefore, be a large one.

Considerable barley was also grown in this county, and a large crop per acre was generally realized, as much as 50 bushels having been reported in some instances. The hay crop, too, is almost without a parallel in quantity per acre, four tons having been reported in some instances. Unfortunately much of the hay made previous to the wheat harvest, was damaged to some extent by the frequent rains. Corn, which had a bad start when first planted, has generally grown so rapidly during the last 10 days or two weeks that it is now well up to its usual standard at this date, except where replanting several times became necessary. In many fields, on that account, the growth appears very irregular.

A part of the proceeds will go toward paying for the public drinking fountain soon to be placed in our city.

INTERESTING FACTS IN WOODROW WILSON'S CAREER.

SUCCESSFUL AS STUDENT, LAWYER, TEACHER, POLITICIAN, GOVERNOR.

Woodrow Wilson was born in Staunton Va., December 28, 1856. His father was the Rev. Joseph R. Wilson, a Presbyterian minister; his mother was Miss Woodrow. When 15 years of age he entered the Princeton College, at Princeton, graduating in 1879. The next two years were spent at the University of Virginia, studying law. While there he won the Thomas Jefferson medal for oratory.

As A Lawyer.

After practicing law two years at Atlanta, Ga., he turned again to the study of law and government at Johns Hopkins University, Baltimore, and it was during his stay there that he married Miss Ellen Louise Axson, of Savannah, Ga. They have three daughters, Misses Margaret, Jessie Woodrow and Eleanor Randolph Wilson.

In College Faculties.

He was a member of the original faculty of Bryn Mawr College and helped to organize the course of study there. Next he went to Wesleyan University as head of department of history and political economy. From there he went back to college the chair of jurisprudence and political economy, and in 1902 was elected president of Princeton, effecting many much needed reforms in the affairs of that University. Among his best known books are "Congressional Government," "The State," "Biography of George Washington," "History of the United States," and "Division and Reunion."

In Politics.

Eight years ago and four years ago he was named as Presidential timber. Little less than two years ago he was nominated for Governor of New Jersey and elected. Under his administration the Public Service Commission was created; the modern workers' compensation act was enacted; the corrupt practices act was strengthened, and an act was placed on statute book giving municipalities the privilege to adopt the commission form of government.

Bible Students' Association Asks That Doctrine of "Hell Fire" Be Repudiated By All Ministers.

Washington, July 8.—By unanimous action today the International Bible Students' Association adopted a resolution unreservedly repudiating as thoroughly unscriptural the teaching of a place, state or condition of "hell fire" or "hellstone" for the torment of the wicked.

At the same time the 4,000 delegates in the convention resolved that the vast majority of ministers of all Protestant denominations of the United States have privately repudiated the "hell fire" theory, but for supposedly good reasons had hesitated fully to inform their congregations. It was the sense of the convention that on this account thousands and perhaps tens of thousands were being driven into skepticism or infidelity.

The convention appealed to every minister in the United States to publish in his local newspaper over his signature a statement declaring and asserting that he believed the Bible teaching of the doctrine of a literal "hell fire," and every newspaper editor was requested to invite the ministers of his locality to avail themselves of that newspaper's columns for that purpose.

The "hell-fire" question was brought up by Brig.-Gen. William P. Hall, U. S. A., who requested the association to repudiate the doctrine. There was an animated discussion before the resolution, presented by Dr. L. E. Smith, of Louisville, was adopted.

Gehr, America was sung by the men and the boys of the school. Rev. L. E. Bennett presented the rewards for excellent attendance. Little's cross and crown system of rewards has been used by the school for several years.
