DEMOCRATIC TICKET.

For President, WOODROW WILSON, of New Jersey. For Vice President, THOMAS R. MARSHALL, of Indiana. For Congress, J. FREDERICK C. TALBOTT, Electors-At-Large, James T. Truitt, Wicomico County, Robert E. Lee, Baltimore City. District Electors. First District-Albert W. Sisk, Carroll County. Second-Dr. Frank T. Shaw, Carroll County. Third-William Shephard Bryan, Baltimore City. Fourth-James Mc. Trippe, Baltimore City. Fifth-Dr. Louis C. Carrico, Charles County. Sixth-Col. E. Austin Baughman, Frederick county.

THE FALLACY OF MR. HUBBARD'S CORN STORY.

Mr. Elbert Hubbard's story, as republished in the last issue of the "Sentinel," based upon the low price of corn in Kansas during the years 1894-6, is intended to convey the impression that the low price was caused by, and chargeable to, a Democratic administration, and that like conditions will again prevail should the Democrats succeed in electing their candidate for the presidency at the approaching election.

We are more concerned as to the causes that brought about this great depression in the price of farm products, and everything else the world over, than we are with the fact that it existed. As to them Mr. Hubbard is silent, and wisely so, otherwise he would have defeated the object he had in view.

He is most unfortunate, however, in the selection of an exportable agricultural product with which to "point a moral and adorn a tale." We always grow a surplus of corn, that is, more than our people can consume; which must be sold abroad, unaffected by tariffs, either high or low, at such prices as the foreign market may fix. The low price to which corn in Kansas had fallen in 1894 should make it apparent to the dullest mind that there was no foreign demand for it, and the supply was in excess of home consumption.

A complete cessation in the export trade in corn, together with as large a crop as was then harvested, will again bring it down to the low price of 1894—regardless of who is President or what party is in power.

There is one thing disclosed by Mr. Hubbard's story which should impress itself upon the mind of every farmer—the wagon that in 1894 cost \$60, now costs \$75, because of the increased duty imposed by the Payne-Aldrich law on the iron and lumber out of which the wagon was made.

THE DUTY OF CARROLL COUNTY DEMOCRATS.

We are nearing the close of the present Presidential campaign. It is a campaign which particularly interests the Democratic party, because victory seems to be within easy reach. All indications point, with almost absolute certainty to the election of Woodrow Wilson as the next President of the United States. But all Democrats must remember that it requires votes to elect a man to any office. We may talk about our admiration for democratic principles and our loyalty to the Democratic party, but if we do not go out and vote, our talk about democratic principles goes for nothing. And if we do not expect ourselves to get the Democratic vote to the polls, and the ballots in the box, and do whatever else we may to promote the interests of the cause, our loyalty to the party may be well challenged. No Democrat who really has the good of his party at heart, will be inactive because of over confidence; because he believes it will go all right anyhow. If a sufficient number of Democrats take the same view, instead of going all right, it will go all wrong. So that, in view of the important issues in this campaign, every Democrat should be at his best and leave nothing to chance.

We want Woodrow Wilson to receive the largest majority that has ever been given to a Presidential candidate in Maryland, and we want Carroll county to have its full share in the glory of such a victory. Let every Democrat get busy and keep busy until the polls close on November 5th.

A FALSE LINE OF ATTACK.

The Republicans are raising the false and wholly unfounded charge that Democratic success will mean business depression. To show one way in which they are attempting this line of fooling the voters, we quote a few sentences from a letter recently gotten out from their Chicago

Headquarters which they are sending the business firms:

"The campaign now in progress has a direct personal interest for you. Upon its result depends the maintenance of the present business prosperity which the country is enjoying. Why sacrifice present prosperity for uncertainty and depression, which a tariff for revenue only would certainly bring."

That these suggestions are wholly false and were wickedly made to fool the people is evidenced by the fact that with the election a very short time off and with almost every reader and thinker and political observer believing that Wilson and Marshall will be elected, yet practically every line of business is showing extremely marked activity. The railroads are placing heavy orders for new rails and equipment, and their earnings are running ahead of last year by many millions of dollars monthly; wholesale houses are having tremendous demands for goods; the steel mills and factories are full of orders; bank clearings show heavy gains all over the country. This intense business activity is due to the fact that the business world knows Governor Wilson will do just what he says he will do. His record is one of complete fulfillment of his promises. All well posted business men know that Governor Wilson's election will help rather than disturb business, because they have absolute confidence that he means every word of it when he says:

"WE DON'T WANT TO DISTURB THE INDUSTRY OF THE COUNTRY. THE CHANGES (IN THE TARIFF) WHICH WE MAKE SHOULD BE MADE ONLY AT SUCH A RATE AND IN SUCH A WAY AS WILL LEAST INTERFERE WITH THE NORMAL AND HEALTHFUL COURSE OF COMMERCE AND MANUFACTURE."

The legitimate business world knows that the election of the Democratic ticket means continual and unprecedented prosperity; yet in spite of this the Republican managers make this wicked attack which if it has any effect at all can be only to fool the voters and to create worry and hardship in the minds of some of the people where there is no basis for any feeling except that of happy anticipation of better things to come when our candidates are elected.

The bride was married in a blue traveling suit, and wore a blue hat trimmed with white. She carried a white service book. Miss Bessie Zile, of Frizellburg, accompanied her. The bride and groom left yesterday evening for Baltimore and Philadelphia and on their return will reside at Frizellburg.

ROOFING AND ASBESTOS COMPANY.

ANOTHER LARGE INDUSTRY FOR CARROLL COUNTY.

In the very near future the Baltimore Roofing and Asbestos Manufacturing Company will start the erection of its plants at Finksburg, which is just a few miles from Westminster. This company has purchased from the Zepp estate 19 1/2 acres of land, just above the Finksburg station on the main line of the Western Maryland Railroad, where the plants of the Oil City Asbestos Company and the Kaylor Asbestos Novelty company, successful going concerns will be removed and where a large plant will be constructed and the business expanded. This combination together with the new plants to be constructed will give Carroll county probably the largest manufacturing concern of its kind in the United States.

The above company was not created to exploit a new enterprise, but to greatly extend and increase the business of two well known industries which are equipped with the most modern machinery, and a well developed trade of six years growth, good will and valuable working patents under which some of their products have been manufactured for years.

The Baltimore Roofing & Asbestos Manufacturing Company will erect at Finksburg, a complete asbestos paper mill, roofing plant, asbestos cement plant, asphalt refinery table top protector plant and a novelty plant. These plants will require a great deal of new machinery, together with the machinery now in use at the two above named plants, which will turn out many carloads of asbestos products daily and will give employment to a large number of male and female hands.

All the plants at Finksburg of the new company will be operated by electric power, generated at their own central station. Mr. O. R. Emigh, general manager, will live at Finksburg. The general offices and warehouse will be in Baltimore. This plant will mean much for Westminster, and Carroll county, as a great many of the skilled workmen will make their homes in Westminster. The pay roll, which will be large, will as a matter of fact naturally pass through the Westminster banks.

The different plants will be constructed of concrete, steel and brick.

Only 2 Marks Required.

To vote the Democratic Ticket two (X) marks are all that is needed. One in the large square opposite to Wilson and Marshall and the other in the square opposite to Joshua Frederick C. Talbott. Sample ballot free at this office, come get one. The Democratic Ticket is second on the ballot.

Card of Thanks.

I wish to thank my many friends for their kindness during the death and burial of my beloved son, MRS. MARIA BRILHART.
