Joint Summer School for Teachers.

As told in last week's Advocate, a meeting of the county superintendents and representatives of the county school boards of Frederick, Carroll, Montgomery and Washington counties met at Frederick, on Wednesday, March 19, for the purpose of considering plans for establishing a joint summer school for the teachers of the four counties.

Mr. John S. Newman, president of the board of school commissioners of Frederick county explained the purpose for which the meeting had been called, and stated that, at the request of a number of teachers, plans had already been formulated for establishing a three weeks' summer school for the teachers of their own county this year. Mr. Newman further stated that in considering plans for establishing their summer school the idea suggested itself that by combining several counties in the plan it would be possible to reduce the expense and at the same time secure a larger and more efficient teaching force.

After some discussion in regard to the feasibility of such a plan, an organization was effected, and the following officers were chosen: President, John S. Newman, of the Frederick county school board; secretary, George F. Morelock, superintendent of schools of Carroll county; treasurer, Earle B. Wood, superintendent of schools of Montgomery county.

The following motions were proposed and carried:

1. That in the opinion of this organization a joint summer school for these four counties is desirable.

2. That the county superintendents of the four counties constitute a committee for the purpose of investigating conditions in their respective counties, and of devising ways and means for establishing a joint summer school.

3. That the members of the committee report to their respective boards the results of their investigations.

The meeting adjourned subject to call of the committee.

The following county superintendents and members of the several county school boards were present: Commissioners A. N. Nicodemus, Philip P. Lee, Wm. P. Morrell, Dr. C. L. Wachtler, John S. Newman, Cyrus P. Flock, Superintendent John T. White, of Frederick county; Commissioners Levi D. Reid, Dr. Wm. D. Hopkins, Superintendent George F. Morelock, of Carroll county; Commissioners D. J. Willard, Z. M. Cook, Superintendent Earle B. Wood, of Montgomery county; Commissioner H. J. Bombaugh, Superintendent W. M. Huyett, of Washington county.

U. S. CIVIL SERVICE EXAMINATION FOR RURAL CARRIER.

At Westminster and Mt. Airy, Md., for Carroll County—Saturday, April 19, 1913.

The U. S. Civil Service Commission announces an open competitive examination on the date and at the places named above, as the result of which it is expected to make certification to fill a vacancy in the position of rural carrier at Woodbine, Md., and other vacancies as they may occur on rural routes at postoffices in the above named county, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. The usual entrance salary for rural carriers is from \$600 to \$1,100 per annum.

Age, 18 to 55 on the date of the examination. The maximum age is waived in cases of persons honorably discharged from the United States military or naval service.

An applicant must have his actual domicile in the territory supplied by a postoffice in the county for which the examination is announced.

The examination is open to all male citizens of the United States who can comply with the requirements. Application Form 1341, and full information concerning the requirements of the examination, can be secured from the secretary of the local examining board or the postmaster at any of the places named above, or from the U. S. Civil Service Commission, Washington, D. C.

Eligible registers established prior to March 1, 1912, can be considered for appointment only at the office for which they were examined. Such eligibles may be examined within one year from the date of their former examinations upon filing applications showing that they meet the requirements of the new examination, their old eligibility for their home offices not being canceled.

Applications should be properly executed and filed with the Commission at Washington. As examination papers are shipped direct from the Commission to the places of examination, it is necessary that applications be received in ample time to arrange for the examination desired at the place indicated by the applicant. The Commission will therefore arrange to examine any applicant whose application is received in time to permit the shipment of the necessary papers.

An eligible register for the position of rural letter carrier for each county will be maintained. A person must be examined in the county in which the postoffice that supplies his home is situated. As a result of such examination he may become eligible to appointment as rural carrier at any postoffice in such county. A rural letter carrier after one year's satisfactory service may be transferred to the position of clerk or carrier in a first or second class postoffice, to the position of railway mail clerk, or to other positions in the classified service, subject to such examination as may be required by the civil service rules.

JOHN C. BLACK, President.

Why Women Are Not Rich.

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal man has five million—the woman only four and a half million to a cubic millimeter of blood.

A decrease in number of red blood corpuscles and a person "looks pale"—in fact, is anemic, the blood does not get the right food and probably the stomach is disordered.

Dr. R. V. Pierce found years ago that a glyceric extract of golden seal and Oregon grape roots, queen's root and bloodroot with black cherrybark, would help the assimilation of the food in the stomach, correct liver ills and in Nature's own way increase the red blood corpuscles. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten the system is nourished and the blood takes on a rich red color. Nervousness is only "the cry of the starved nerves for food," and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and is refreshed in the morning.

"I was attacked with a severe nervous disease, which was caused by a disordered stomach and liver," writes Mr. J. A. D. Lively, of Washburn, Tenn., Route 2, Box 23. "All my friends thought I would die and the best physicians gave me up. I was advised to try Dr. Pierce's Golden Medical Discovery, and derived much benefit from same. My case had run so long, it had become so chronic that nothing would effect a permanent cure. Yet Dr. Pierce's medicine has done much for me and I highly recommend it. I heartily advise its use as a spring tonic, and further advise ailing people to take Dr. Pierce's medicine before their diseases have run so long that there is no chance to be cured."

MR. FARMER

Don't get excited when some smooth tongue gentleman from a distance, who is paid a large salary to go out and catch suckers, drives into your place and in a "JUST AS PLAIN AS DAY" manner offers you from 10 to 12c a pound more for your butterfat than your local Creamery is paying.

Remember it is not the first time these "GLORIOUS" opportunities have been offered you, as no doubt some of you have had recollections of. There are few people in the city that are sufficiently interested in the welfare of the "Old Rube" as they call him, to pay him more for his goods than they can in turn sell them for.

What It Means

Many people do not know what a bank's Capital is for, or the difference between a bank with a small Capital and a small surplus or a bank with a large Capital and a large Surplus.

A BANK'S CAPITAL AND SURPLUS

Is the fund that protects the depositor from loss, therefore, the larger it is the greater protection the Depositor has. This bank has a
