canoe getting people out of the flood-

HUMAN HEARTS
Will be the attraction at
The Opera, April 14,

The story of "Human Hearts" is one of love, pathos, and
devotion, skillfully intermingled and yet serious and sublime
as the theme may be, the play contains many laughable scenes
and situations controlled by the quaint characters of Jem Mas-
son the tramp, and Mose, the faithful old negro, who bring
out a smile or a good hearty laugh just at a time when some
pathetic scene or line of the play is about to bring out handker-
chiefs from many in the audience and the childish logic of lit-
tle Grace Logan brings a tear one moment and a smile the next.
It is such plays as "Human Hearts" that are the most success-
ful and seemingly will live forever. A complete production is
carried for the piece, the scenery being handsome and striking
in appearance making a befitting frame for the author's story.
It is promised that the productions will be worthy of the play
and that the performance of "Human Hearts" will be first-
class in every respect. Its simple story, with its fine char-
acter contrasts, have made it a play replete with those elements,
which establish popular success, leaving a most pleasing im-
pression at its conclusion. It is plays of this kind that best
pleases the general public and that is why "Human Hearts"
has always been such a great success and will always be in
popular demand.

Regal Shoe Styles
"UNIVERSAL" Model

THE "Happy Medium" in Semi-high-toed shoes.
Extremely comfortable, while being up-to-the-
hour in style expression.
Its fine, easy-fitting qualities are due, in large measure,
to the skillful "rocker" convex curve of sole, with concave
curve of upper.

This latter gives a short vamp
that will not wrinkle (through
excessive slackening of leather)
when forepart of shoe is bent in
walking.
