A little girl came home from Sunday school recently and a visitor asked her if she knew anything that was in the Bible. She replied, "Oh, yes. Mr. Stoner went West when a boy, with his father's family in 1878, and returned on a visit in 1883, and this is his first trip to old Carroll in 31 years. Of course he notes many changes here during that time.

To economize and curtail expense the Western Maryland Railway Company ordered the yard crew at Union Bridge to discontinue work at that place until further notice. The railroad company has lost a great deal of business from the cement company which may have caused the above order.

On Tuesday, March 3rd, Mr. Frederick Zahn, of this city, celebrated his 94th birthday in a most pleasant manner, being entertained by Mr. George W. Albaugh, this city, at a delicious dinner which pleased Mr. Zahn immensely. Mr. Zahn is a hearty and hale fellow who celebrates many more birthdays. He walks with the aid of a cane, which he very much prefers to riding. Mr. Zahn is perhaps one of the best known residents in the county. He came to this country from Austria in 1842, landed in Baltimore and walked to Westminster. He says the first man to give him the "glad hand" was the late Michael E. Baughman. For many years he practiced his trade as millwright and mechanic at Fountain Valley, and since the death of his wife has made his home with his nephew, John T. Zahn, East Main street. Mr. Zahn has twice been back to the "Fatherland."

The two Cubans who came to this city recently selling a high grade of Havana cigars which cost 11 cents apiece at a big reduction of 5 cents each, to our lovers of a good smoke, were arrested in Baltimore last week, and their purchasers here are satisfied to know of their arrest. The salesmen when presenting a sample of their stock also regaled the customer with a story to the effect that they were trying to raise money to complete their education. Of course with a good cigar and the pitiful story, they were given an order, in some cases amounting to from \$3 to \$5. When the customers received their consignment of cigars were they like the sample? Well not much! They cost about a penny apiece, and were high in price at that. If you pass a gentleman in this city smoking, and the odor is like boiled cabbage, he is one of the victims.

Brooding over his crime, which caused him to be sent to the Penitentiary, Raymond Claborn, 26 years, old, of Ladesburg, near Keymar, became insane and in a rage threatened to commit suicide, take the lives of his parents and to burn the house down. He was removed to Conover Hospital, the Frederick county insane asylum, about three weeks ago he was pardoned by the Governor and released from the Maryland Penitentiary, after having served since September, 1912, on a two-year term for forgery. Disappointment in love is attributed as the cause of the young man's downfall. Since he returned to his home at Ladesburg he has been very despondent, but it was not until Saturday that he appeared to be demented, and then the loss of his reason was most sudden. At times he declared he saw the young woman with whom he had been in love before he went to prison, and he madly fought those who tried to convince him otherwise. He secured a poker and it required the assistance of a number of neighbors to keep him under control.

Clinton N. Myers, of Hanover, Pa., formerly of Bachman's Valley, who is the largest breeder of Barred Plymouth Rocks in that section of the county, has just issued a catalogue of the "Lady Beautiful" strain. This booklet is an attractive product of the printers' art. The cover is embossed in gold, together with a reproduction of a barred black and white feather from one of the prize birds.

Caught in a torrent of water that overflowed from the mill race and swept through a brick building where they were working, seven men had a narrow escape from drowning Tuesday morning at the woolen mills of William A. Dickey & Sons, at Oella. The water rushed into the building from such force that the men were carried off their feet, and before they could escape some were in water up to their necks.

A large committee meeting of the Woman's Civic League was held at the home of Mrs. Charles E. Stewart, the president, on Wednesday to discuss the oyster supper and bazar to be held in Firemen's Hall the evenings of March 19, 20, and 21. Struck by a Western Maryland freight train at the State Sanitarium, Charles Lewis, of Sabillasville, was probably fatally injured Monday evening. Lewis, who was returning from delivering milk, was attempting to cross the track when his buggy was struck by a local eastbound freight. The horse was killed and the buggy demolished. Lewis was thrown a considerable distance, landing on his head, sustaining a fractured skull and a broken leg. He was picked up unconscious and taken to the hospital at Hagerstown.

Immediately after the stockholders' meeting the directors read the following officers: A. V. Moore, President, and Dr. Edgar A. Slagle, Secretary. The board of directors declared the regular annual dividend of six per cent on the preferred stock, and a dividend of five per cent on the common stock, payable March 15th, 1914.

Special traffic regulations have been put into effect by the Police Board of Baltimore, as a result of many complaints which Marshal Farnham recently received. The regulations affect all the parkways, requiring that all vehicles shall keep to the right. Drivers have also been instructed that they must at all times comply with any direction, by voice, hand or otherwise, of any member of the police force as to stopping, starting, approaching or departing from any place. The rules provide that no vehicle shall back to make a turn in any of the down-town streets. For the first time in many years the Eagle Hotel, Gettysburg, Pa., is without a proprietor. This famous hostelry was closed Monday when all guests were given notice to vacate their apartments and the help, with the exception of a watchman and fireman, was discharged. According to advice of the administrator, William Hersh, Esq., this action was necessary because there are no funds on hand to meet current expenses.

A watchman has been employed by the Westminster Fire Company to look after the firemen's building at night to see that no one will use the building except those who are members. In the past few weeks a lock was forced and lights were left burning, which is contrary to the rules. The building will be visited each hour and any person not a member, found in the building, will be reported to the president, who will look into the matter.

The Baltimore Sun of Saturday contains the following item: "Many are of the opinion that Mr. Gray, the newly elected president of the Western Maryland Railway Company, will first devote his efforts to having a double track, low-grade line constructed over the Blue Ridge. This will make the tunneling of the mountain a necessity, and it is thought this project, which was drawn to the attention of John D. Rockefeller, Jr., on his recent trip, will be among the first of the big moves made after the new executive has become well settled in the saddle."
