

The Democratic Advocate

WESTMINSTER, MD.

FRIDAY AFTERNOON, SEPT. 18, 1914

DEMOCRATIC TICKET.

For United States Senate.  
JOHN WALTER SMITH,  
of Worcester County.

For Congress,  
J. FRED C. TALBOTT,  
of Baltimore County.

HON. JOHN WALTER SMITH  
NOMINATED.

Hon. John Walter Smith, candidate for U. S. Senate, through a long political career has served the State of Maryland faithfully and well for a number of years. Senator Smith is a statesman of exceptional ability, unexcelled in his efforts to secure for the country and for his state the benefits of progressive legislation sufficient to meet the needs of the present day without any taint of ultra-radicalism.

His record while the incumbent of the gubernatorial chair for Maryland was such as should entitle him to the unstinted support of a united party. On every issue of national importance he has stood shoulder to shoulder with the President and his supporters; he has been responsible in no small way for the numerous reforms and splendid efficiency of the Woodrow Wilson administration.

As Governor of Maryland and as a distinguished Senator of the United States, John Walter Smith has devoted his talents and high character to the service of his country with energy, efficiency and enthusiasm.

GENERAL REGISTRATION.

This year for the first time in many years there will be a general registration throughout the entire State. The dates are the 22nd and 23d of September; the 6th and 7th of October, and revision date the 13th of October. After the primary election all the registration books of the State will be destroyed and no one will be allowed to vote except those who register anew on the dates above enumerated. It therefore becomes the duty of all those who desire to participate in the general election this year and the primary election of next year to see that they are registered in their respective districts in which they live. Every voter must remember whether they have been registered or not, that before they can vote after the primary election they must be newly registered. Bear these dates in mind and register at the very earliest one possible.

IS IT A WAR TAX OR LOW TARIFF PENALTY?

President Wilson's appearance before Congress to present his plea for the immediate imposition of a war tax, to make up the expected deficiency in the Federal revenues dispels the hope that the Administration would let the question go over until the next session. Mr. Wilson, however, foresees a deficiency which he estimates loosely at "from \$60,000,000 to \$100,000,000" for the present fiscal year, and he believes the Government should be forehanded in dealing with such an emergency.

There will doubtless be violent differences of opinion as to the cause of the falling revenues, and the President's explanation that the deficits are not due to the reduced rates, but to the cutting off of importations by the European war, will be disputed. It cannot be contended truthfully that the war is not immediately responsible for much of the falling off of Federal revenues but there is quite enough ground for the contrary proposition to form the basis for animated political controversy. The revision of the tariff schedules unquestionably had a profoundly unsettling effect upon all commercial and industrial operations, but before the revenue producing value of the new tariff law could be definitely determined the war came to create new uncertainties.

The President, as is natural, makes the most of the opportunity these conditions offer, and makes the bold claim that the financial difficulties which will confront the Government unless provision is made for more revenue by internal taxation, "are not of our own making." From the point of view of the Democratic party this is not a fortunate concentration of circumstances. The failure of the tariff will be completely covered by the war exigencies.—From the Philadelphia Public Ledger.

GIVE THE NEW TARIFF A CHANCE.

The election of a Democratic House this fall will foreclose tariff agitation in the United States for a long period—maybe ten or more years. That would mean steady conditions and rapid expansion of American business and industry.

Before the European war broke out The New York Journal of Commerce stated that the Underwood tariff had

proved a boon to consumers, with a minimum disturbance of business.

If the country is free of tariff agitation after the foreign war is over, commerce will fully adjust itself to the new conditions. The judgment of the commercial world strongly opposes another long period of tariff controversy. If a Republican House is elected its first act would be to bring in whatever kind of a tariff its mixed elements could agree upon. With that as a foundation it would start out upon two years of general warfare calculated to handicap the operation of the Underwood tariff and popularize some counter proposition. That would involve simply two years more of uncertainty and timidity.

The question confronting the average business man at the election is merely that of whether he chooses to be the football of a heterogeneous, unclassifiable mob of "OUTS" seeking to become "INS." Shall a definite program, supported and sustained by a compact party organization be put aside for no program at all? What can be expected from an opposition?—The Jeffersonian.

"Fathom" is an elastic term which may mean anything from five to six feet.
