Look Out For The Picture Man.

The company from Utica N. Y., who came to your house and told you he was making pictures free, just to start an art school here. After getting your Photo in their possession they charged you \$2.00 and required 50c deposit. They told you they only charged for the three tubes of paint. They also told you that they were graduates of the High School of Westminster, and they were working for the High School to get appropriation enough to build an art department to the High School Building. This is positively false, for none of these men ever went here to school. The man who was here soon with the profit and will require another deposit and will want you to select a frame and you will find his prices will be 50 per cent higher than the usual price. Don't lose your money and photo as you well know it has been done here.

CORN ON THE COB ---THE ROASTING EAR

Is not more delicious than the New Post Toasties

New Post Toasties

In the growth of corn there is a period when the kernels are plumped out with a vegetable milk, most nutritious (roasting ears). As it slowly ripens this hardens and finally becomes almost flinty.

This nutritious part of the corn is cooked, seasoned, rolled thin, and toasted by a new process which enhances the true corn flavour.

Different from ordinary corn flakes, the New Post Toasties have a distinctive form and flavour; and they keep their appetizing crispness, even after cream or milk is added.

These Superior Corn Flakes come oven-fresh in tight wax-sealed packages; and they cost no more than ordinary "corn flakes." Insist upon having
