FOR NEW ELEVATOR!

Western Maryland Reported To Be Considering Another.

In consideration of the great and increasing volume of grain business at the Baltimore port it is understood that the Western Maryland Railway Co. has in contemplation the construction of another elevator. Traffic congestion in Baltimore has been nothing to the congestion in New York and Philadelphia, the greater difficulty having been occasioned by the great shipments of grain. To alleviate such conditions in the future it is said that the Western Maryland plans the new elevator.

The Railway Company has just completed an elevator embodying the latest features for structures of this sort at Port Covington. This elevator is of reinforced concrete and is said to permit of the lowest insurance rate for grain of any elevator on the Atlantic coast. This structure cost about \$650,000.

Baumgartner-Mehring.

Norman R. Baumgartner, son of Mr. and Mrs. Peter B. Baumgartner, of Keyaville, and Miss Edna B. Mehring, daughter of Mr. and Mrs. David M. Mehring, were married Thursday evening, March 9, at 6 o'clock at the residence of the bride's parents, by Rev. J. B. Hafer, assisted by Rev. J. M. Lau and Rev. S. R. Downie.

The bride was gowned in a handsome gown of white crepe de chine with georgette cape. The bridesmaid, Miss Lilian Baumgartner, sister of the groom, wore blue crepe de chine with blue shiffon trimming. Mr. Hillard, Mehring, brother of the bride, was best man.

The house was beautifully and appropriately decorated and a fine display of gifts were received. After a very ample wedding dinner was served the couple left for a trip to Florida. Upon their return they will reside in Taneytown.

Wampler-Fuhrman.

Hattie M. Fuhrman, daughter of Mr. and Mrs. Charles Fuhrman, near this city and Benjamin F. Wampler, were married Wednesday evening at 7.30 p. m., at Salem Lutheran parsonage, by Rev. W. P. Herald. The bride wore a pretty suit of blue corduroy, with hat to match. They were unattended. May long life and happiness attend them.

TUBERCULOSIS DEATH RATE DECLINES TWENTY-FIVE PER CENT.

While the latest report of the Bureau of the Census shows that in 1914 tuberculosis caused over 10.5 per cent of all deaths in the registration area of the United States, the National Association for the Study and Prevention of Tuberculosis points out in a statement issued today that the death-rate from this disease is steadily decreasing, having declined from 200.7 per 100,000 population in 1904 to 146.5 in 1914. This would indicate, the Association claims, that the anti-tuberculosis movement organized in the last ten years is having a marked effect on the mortality of tuberculosis, especially since the death rate from this disease seems to be declining more rapidly than the general death-rate from all causes.

Commenting on this decrease in the rate from tuberculosis, the Bureau of the Census says: "As a result of a more general understanding of the laws of health, the importance of clean air, and in part, no doubt, to the efforts of the various societies for the prevention of tuberculosis, there has been a most marked and gratifying decrease during recent years in the mortality from this scourge of civilization. In only a decade—from 1904 to 1914—the death-rate from tuberculosis in the United States fell from 200.7 to 146.5 per 100,000, the decline being continuous from year to year. This is a drop of more than 25 per cent."

As an indication of the growth of the campaign against tuberculosis, the National Association for the Study and Prevention of Tuberculosis shows that in 1905, when the campaign was definitely started, there were in the United States only thirty-nine anti-tuberculosis associations, 115 sanatoria and hospitals, twenty special clinics, no open-air schools, and not more than 5,000 people actively interested in the prevention of this disease. At the close of the year 1915 there were over 1,500 anti-tuberculosis associations, 600 sanatoria and hospitals, 450 dispensaries, 800 open air schools, and over 100,000 people actively interested in the prevention of tuberculosis. Besides this, the fundamental truths that tuberculosis is a communicable, preventable and curable disease have been carried in almost every village and hamlet and to millions of men, women and children in a great variety of ways. GERMANY HAS DECLARED WAR ON PORTUGAL

Portuguese Government Rejected Berlin Demands For Release of Ships.

Berlin, March 9.—Germany today declared war on Portugal, and the Portuguese Government became the fourteenth involved in the world conflict.

The German Minister at Lisbon today notified the Portuguese Government of the declaration, handing the official document to the Foreign Minister with the remark: "The German Government, therefore, now considers herself from this date at war with Portugal."

The German declaration was based on the act of Portugal in seizing, without previous notice, German merchantmen in Portuguese ports. This action, Germany charged in a sharp note of protest, violated the existing commercial treaties between Germany and Portugal.

MARCH MAY NOT BE A GREAT MONTH, BUT IT MAKES CONSIDERABLE NOISE.

One uses about as much coal during this windy month as in January or February. Better keep a good supply on hand all the time, order early in the day of Smith & Relfsnyder.

J. W. Mather & Sons WESTMINSTER'S LEADING STORE Wash Goods!

New Goods For The Season of 1916.

In spite of the very high price of dyes and the high price and scarcity of many kinds of goods we have one of the most attractive lines of wash goods and at prices as low as ever.

We bought our summer goods some time ago before the big advances took place. IF WE HAD TO BUY THESE SAME GOODS TODAY WE COULD NOT SELL THEM AT THESE PRICES.

On a few, a very few of the staple goods we have been compelled to make a slight advance, for instance, the best apron gingham are now 9c instead of 8c. The wholesale price was raised 1c some time ago and may go higher, but we have advanced only 1c yard. The best blue shirtings have advanced 2c yard, so we have had to put them up to 12c. Matches advanced 25 per cent, so we have to ask you 4c strait instead of 3 for 10c.

We might have bought cheaper goods and substituted but we believe you would rather pay the very little advance asked and know you are getting the standard brands of goods.

All our Dress Gingham are at the old prices and our stock is bigger, than ever, but as we cannot rebuy them at these prices we advise you to buy early to get the best selections.

Ginghams 10c

These are 32 inches wide, pretty patterns and fast colors. We could not buy them today and sell them under 12c.

Ginghams 12 1/2c

These include all the best makes, such as Bates, Red Seals, Toile du Nord, &c. Solid colors and fancies in almost every conceivable pattern in both light and dark colors.

Ginghams 15c

Fine grade of 32 inch Ginghams in patterns that you can't resist.

Spider Mull 12 1/2c

This is the mill name for a fine mercerized batiste that washes and wears well. A great variety of patterns in stripes and floral designs. We cannot rebuy it now at this price.

New Voiles

Voiles are going to be more worn this summer than ever before. It would be useless for us to try to describe here the great variety we are showing. In both plain white and fancies, stripes and floral effects, woven and printed, the patterns are the prettiest ever and the prices reasonable.

Cabardine

For white skirts this will be in great demand, and this season there are many new and attractive patterns of it.

New Shirtings 18 and 25c

New patterns in pongees and madras that are especially suitable for shirts and shirt waists. More and more of these goods are sold each season. Collar bands for men's shirts, 5c each. As these are the most troublesome part to get to fit, it will pay you to buy them.

New Percales 12 1/2c

Our complete line is now in and we are proud of it. In spite of the high prices we are giving the same good quality and a greater variety of patterns than ever at the same old price.

Corduroy or Golfine 58c

This promises to be very good again for skirts and will be scarce. 36 inch width, in white and tan, for 58c.

Silks \$1.00

A great variety of yard wide silks at \$1.00 yard. We could not sell them under \$1.25 if we had to buy them today. Every day sees some pattern sold out, so we advise early buying if you want to save money.

New Embroidery 10c

A big lot of beautiful fine swiss embroidery, worth from 10 to 20c yard, all at the one price of 10c yard for this lot.

Corsets 50c

Another lot of those special corsets that are such good value for the money. We had to pay a little more for this lot, but we still say 50c pair.

SPECIAL! While in New York last week our buyer picked up a bargain in Imported Dinner Sets. These are Austrian or German China and are strictly first quality. They were ordered before the war by a Canadian firm and owing to the war coming on were a long time in getting across the water. They landed in New York some time ago, but as British subjects are not allowed to receive shipments from an enemy country, could not be delivered. They are worth about \$22.00 a set, but for these six sets we say \$18.00.
