If you can think of anything that can be done to beautify or build up our town, go to it. Keep your capital at home; patronize home industries; help your merchants so they can sell cheaper; always get your work done in your own town if possible; subscribe and pay for the home papers, don't steal or borrow the reading of them. If you follow these suggestions and your town does not improve and build up it will not be your fault. Try it.

Larger postal savings deposits will now be accepted at the post office. This is made possible by an important amendment to the Postal Savings Act just approved by President Wilson. A postal savings depositor may now have an account amounting to \$1,000 upon which interest will be paid. Formerly \$500 was the maximum amount he could have to his credit. This enlargement of postal savings facilities will be very gratifying to thousands of depositors who have already reached the old \$500 limit and are anxious to deposit in a calendar year the amount that will avoid further embarrassment to the public and to postal officials is the doing away with the limit on the amount that could be accepted from a depositor monthly. Under the old law only \$100 could be deposited in a calendar month. The amendment abolishes this restriction. While the Postal Savings System has already proved a signal success as is shown by the fact that more than half-a-million depositors have over eight million dollars standing to their credit, it has fallen short of meeting the full demands of the public because of the restrictions which have now been eliminated.
