Special Notice to Farmers.

We are informed by some reliable Farmers that there are certain parties making the rounds amongst the Farmers selling Fertilizer and telling them that there would not be near enough Fertilizer for fall seeding, please do not entertain an idea like that as we have made arrangements to supply our farmer trade with all the Fertilizer they will need for this fall's seeding. Furthermore are pleased to say for less money than this spring's prices. We will have all our old Brands and will make anything the farmers want in addition to them, but all without Potash, unless at a very much higher price. In all instances please see the manager of our Co. before you buy your fall needs from any one else. There is a trace of Potash in all of our Fertilizer which we make no charge for.
