What Joseph L. Baust of Westminster has to say about cream separators this week All Highest Prize Butter De Laval Made THE most important better scoring contents take place at the Annual Convention of the National Buttermakers' Association, held in recent years in conjunction with the National Dairy Show in Chicago. The first prize winners at every convention of the Association since its organization in 1892 have been as follows—all De Laval users. 1892—Louis Brabe 1893—C. W. Smith 1894—F. C. Post 1914—A. C. Post 1915—A. C. Post 1916—A. C. Post. There were no national conventions in 1904, 1905, and 1906. When you use a De Laval Separator you not only get more cream but better cream as well. THE best evidence of this is that during the last twenty-five years butter made from De Laval separated cream has invariably scored the highest at all important contests and state fairs. Practically all the cream entered in the International Milk and Cream Show held in connection with the Panama-Pacific Exposition, was separated by De Laval, and every first prize, and most all the other prizes, were won by De Laval separated cream. These facts are simply further proof of De Laval supremacy in everything that goes to make a good cream separator. Don't buy any separator until you give us an opportunity to let you see and try a De Laval. We will be glad to send one out to your farm on trial any time you say. Just phone, send a post card, or call and we will be glad to give you all the information you wish. Sooner or later you will buy a DE LAVAL
