What Joseph L. Baust
of Westminster
has to say about cream separators this week

IT will be worth your while to find out what some of your neighbors who use De Laval Cream Separators think of their machines before you buy any separator. About the best thing we can say for the De Laval is that all the farmers around here who use it are boosters. It does good work for them and pleases them, and we know it will please you. Make it a point to ask your neighbor about his De Laval. There are nearly two million satisfied De Laval users throughout the world. More De Laval Separators are in use than all other makes combined. It isn't the cheapest, but the majority of separator users have found out by experience that it is the best and by far the most economical separator to own. We want to tell you about an arrangement we have whereby you can make partial payment at time of purchase and pay the balance on such liberal terms that the De Laval will save its cost while you are paying for it. Come in and see us the first time you have a chance and talk it over.

OUR COAL THE OTHER KIND
WHEN YOU ARE BUYING COAL you are buying either warmth or disappointment. Some coal is like cold stone—no life or heat in it. Our coal measures more heat to the ton than ordinary kinds, say our customers. You will be doing yourself an injustice if you do not give our coal at least a trial. If you are a judge of coal value, you will see the big difference.
