The Baltimore Sun of Monday published a strong article written by Mr. F. Neal Parke, attorney, of this city, on the Budget system of the State. Mr. Parke discusses with unusual clarity the weaknesses of the present appropriation system and the improvements which the budget would present; and he disposed effectually of the suggestion that the amendment would invade the field assigned the Legislature in the American scheme of government. He also states convincingly the reasons why the budget-making authority should be placed in the hands of the Governor, rather than some plural body, such as the Board of Public Works.

After fifteen years' exclusion from the patronage of the Pennsylvania Railroad Company, the Western Union is once again to do business with the great railroad corporation. This became known last week when it was discovered that the present exclusive contract between the Telegraph Company, which expires on June 25 next, will not be renewed. The Western Union, which once did all the telegraph business for the Pennsylvania Railroad, lost the contract during the presidency of the late Alva C. Cutts, but after a long and angry difference with the Western Union officials, ordered that all the corporation's poles along the lines of the telegraph business for the Pennsylvania system be cut down.

True neighborliness was shown by a number of men living in the vicinity of Piney Creek several days ago, when they gathered at the home of Harry Cutts to cut his field corn. Several months ago Mr. Cutts was taken ill and later underwent an operation at the Frederick City Hospital. He recovered slowly and, though he has been able to do any hard work, knowing this, his friends and neighbors decided to cut at least part of the corn in his field and gathered at four o'clock in the afternoon for that purpose working vigorously for several hours and accomplishing a great deal, though they were sorry they had not found it possible to give more time and complete the job.

Frick, who is serving a sentence of one year in the Maryland Penitentiary, having been convicted of manslaughter for the shooting and killing of Everett Chaney, will possibly be pardoned."
