

The Democratic Advocate

WESTMINSTER, MD.

FRIDAY AFTERNOON, OCT. 6, 1916

DEMOCRATIC TICKET

For President of the U. S. WOODROW WILSON.

For Vice-President of the U. S. THOMAS R. MARSHALL.

For United States Senator, DAVID J. LEWIS, Allegany County.

For Congress, J. FREDERICK C. TALBOTT, Baltimore County.

Woodrow Wilson is the man that "Hughes to the line, no matter where the chips fall." See what he said to Jeremiah A. O'Leary, president of the American Truth Society. If you have not seen what he said, its enough then to know, that the President declared him a disloyal citizen and did not want his vote, nor that of any of his kind. If this does not prove the greatness of the President's Americanism—then sox does not spell socks.

"Judge not less ye be Judged," and this proves Chas. E. Hughes was never a real tone Judge.—Only a so-called one and spelled with a small j.

A corporation is an institution "without a body to be kicked or a soul to be damned", and Mr. Ex-Judge Hughes is backing them up against their employees. He even vetoed when Governor of New York, a two cent a mile car fare. This hurt the Commercial Traveler and all other folks who travel. Poor fellow, his past actions speak louder than his present word; hence how very inconsistent is he.

Sunday's Baltimore American says: "Indications are Mr. Wilson will have plenty of leisure in which to write his conception of current history."

We presume it means after 1920, because he will be busy at the White House until then.

C. E. H., reversed stands for He Evades Caution, in his public utterances, therefore, He'll Evaporate Certain before the election if he keeps on talking.

Charles Gibson, of Albany, head of the Wholesale Druggists' Association says "Hughes is a safe man." What kind? There are two, you know—one that makes safes and another that cracks them.

Wilson has the Democratic party leaders really worried.—American. Evidently about what his majority will be? Lets call it 69 for short.

The Wilson worker cannot work the workingman.—American. Neither can the fellow who votes a two cent a mile car fare in favor of corporations.

Those whom the Gods would destroy they first make mad. Better look out Mr. Ex-Judge Hughes, or the devil will get you.

Ex-Judge Hughes vetoed a "Race Bill," and that is why he is so opposed to the German-American Hyponate.

Old-Fashioned. Him—Mrs. Dillon's reception was quite an old-fashioned affair. Her—Is that so? Him—Yes. Why, the refreshments served were actually fit to eat.

THE CORN CROP OF CARROLL COUNTY OVER TWO MILLION BUSHELS

The United States Department of Agriculture, Bureau of Crop Estimates, forecasts the corn production for the following Counties of Maryland.

CORN PRODUCTION IN MARYLAND

List includes all Counties producing over one million bushels.

Table with 2 columns: County, Bushels. Lists counties like Baltimore, Caroline, Carroll, Cecil, Dorchester, Frederick, Harford, Kent, Montgomery, Prince George, Queen Anne, Talbot, Washington, Worcester with their respective bushel counts.

CARROLL RANKS SECOND AMONG ALL THE COUNTIES OF MARYLAND IN THE PRODUCTION OF CORN.... THIS CROP VALUED AT 80C PER BUSHEL PRODUCES THE SUM OF NEARLY ONE MILLION SEVEN HUNDRED THOUSAND DOLLARS.

Look your future square in the eye. Don't dodge. Tell yourself that you KNOW you ought to be saving your part of this vast sum.

Start! That's the big move.—Open a Savings Account with this Bank this week!

Millions of Dollars

Will be saved in Carroll County during the next few years, and one of the greatest factors in the saving will be keeping the saloons closed.

THE BANKS TELL THE STORY

The total amount of deposits in the 19 Banks of Carroll County at the time of the recent September statement was \$9,400,499.15

The total amount of deposits on May 1, 1915, the beginning of the dry period, was 8,240,821.99

A gain since the saloons were closed of \$1,159,677.16

THERE IS NO BETTER INDEX TO THE CONDITION OF A COMMUNITY THAN ITS BANK DEPOSITS.

THIS RECORD SHOWS

A PERIOD OF UNEXAMPLED PROSPERITY IN CARROLL COUNTY.

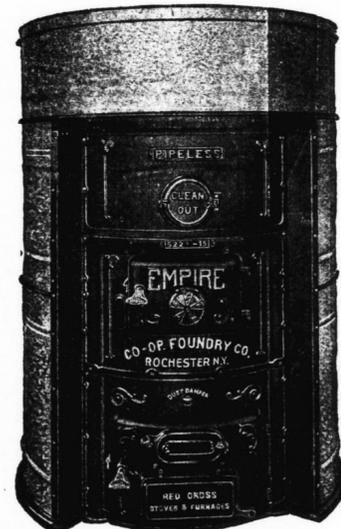

Every Bank in the County shows a substantial gain.

NOTICE:

If you hear any one attempting to argue that the no license plan has hurt business, DON'T SHOOT, but report him to the Court at once, that an examination may be made as to his sanity.

Published by authority of the Union Temperance League

THERE HAS BEEN NOTHING CONCEIVED IN RECENT YEARS THAT MEANS MORE TO THE FARMER AND THE TOWN MAN THAN THE EMPIRE SYSTEM OF PIPELESS HEATING

How often have you said, "Gee, I wish I had a Heating Plant in my house, but I can't afford one." Now here is a heater that is within the reach of everyone, no matter what his circumstances may be. One that is guaranteed to be absolutely satisfactory in every particular. Don't get the idea that because it is cheap it is inferior in quality. Such is not the case. Every part of these heaters is made of the finest material, being made by the manufacturer of the celebrated line of Red Cross Stoves and Ranges. Now I don't contend that the Empire Pipeless Furnace is a whole lot better than a Steam or Hot Water Heating Plant, yet compare it with either of these it has some advantages over them.

First—The cost of installing the Pipeless Furnace is only half of what either the Steam or Hot Water Job would cost.

Second—It is not necessary to go to the extra expense of putting water in your house.

Third—There are no radiators to take up a space that you would like to have for some piece of furniture.

Fourth—No tearing up of floors or tearing out of partitions, as it is only necessary to cut one opening in the floor for the main and only register.

Fifth—It positively does not heat the cellar, vegetables and fruit may be stored along side of it without danger of spoiling. Sixth—It is a ventilating system as well as a heating one. Pure, fresh, warm air which is perfectly healthy.

THERE IS SUCH A VAST DIFFERENCE BETWEEN A PIPELESS HEATER AND STOVES THAT THERE REALLY IS NO COMPARISON AT ALL.

You can run one of the Empire Pipeless Heating systems on less fuel than you would require for stoves.

It does away with the carrying of coal and ashes through the house, thus eliminating a whole lot of unnecessary dust and dirt.

In the use of stoves there is always more or less smoke and gas in the house which is very unhealthy, even dangerous.

There is no additional space taken up in the room, the ceilings are not disfigured by cutting holes in them, there is no unsightly pipe in the room and the wall paper is not made dingy by coal gas.

It saves work for it requires no more attention than one stove yet it heats your whole house.

It will soon pay for itself in the saving of fuel.

The Empire Pipeless Furnace heats the whole house from one register. It ventilates as well as heats. It soon pays for itself in the saving of fuel. It disturbs not pure, warm even heat to every nook and corner of the house. It can be installed in houses with either high or low cellars. And considering the price it is something that you cannot afford to be without.

Burns hard or soft coal, wood, coke or natural gas. Every one guaranteed satisfactory. I would be pleased to measure your house and give you an estimate of what one of these Empire Pipeless Warming Systems would cost you.
