A Great Dairy Invention

It's a wonder—a separator which will skim clean at low speeds that would cause heavy loss of cream with any other separator. Besides it gives cream that does not change when you change the speed of the crank. We want you to see and try for yourself this latest improved model introduced by the oldest manufacturers of separators in America.

THE NEW SHARPLES SUCTION-FEED

Separator gets a new profit for dairymen, a big one, which no other existing separator gets. Another fine feature, you can turn faster and finish the job quicker. It's the only separator that can be hurried. Think how much work the Sharples will save the women folks. No fussy discs to wash, or to get mixed up. The bowl has just one simple piece in it. The supply can be large and very low. Your boy can easily empty heavy pails of milk into it.

Test this wonderful machine right in your own dairy. Every member of the family will want to see and try it. They'll all be delighted. Phone us today for free trial or call when in town.
