The second snow fell in this city Tuesday evening, that covered the ground. The snow was deep enough for the children to slide on their sleds.

A contemporary wants to know who took the "pot" out of the potatoes. It would be more instructive to know who took the "eat out of wheat."

Governor Harrington announced Tuesday the appointment of members from the state of the Advisory Board, and named Messrs. F. Neale, Parke, chairman, E. O. Weant and W. L. Seabrook for Carroll county.

The election expense account filed by the Republicans with the Clerk of the Court shows that they received \$901.42 and spent \$839.83. Galen Tait was the heaviest contributor, \$200. The local committee had on hand from the last election \$392.80.

Edward G. Morgan, a flagman, who sued the Western Maryland Railway Company for \$10,000 damages for injuries was awarded \$6,000 by a jury at Hagerstown Thursday. Morgan, while in the employ of the road, was run over by a car and his leg cut off.

A rabbit weighing six and one-half pounds and measuring 35 inches in length, was killed Thursday by Lee Foust, of near Glen Rock. This same rabbit is supposed to have been seen and fired at on several previous occasions, but no one could drop him. The shots which killed the rabbit penetrated the head and it is believed that shots striking the other part of the body had no effect.

Mr. J. C. Wilson Franklin Grove, Lee county, Ill., in renewing his subscription says: "It is a welcome visitor at our home, couldn't get along without our home paper. We have been having fine fall weather, but is getting colder today, November 22. The corn crop is poor this year on account of the early frost. There is lots of soft corn, and there will be very little corn shelling done this winter because the corn is spoiling as the farmers pick it."

The first result of the meeting in the postoffice where the dismissal of enemy aliens was considered by a number of industrial enterprises was the discharge of eight men from the employ of the Western Maryland Railway at the piers and grain elevator at Port Covington. The fact that even first papers in the step to naturalization were not to be considered hit the men in the employ of the road. What were the results among the numerous industrial enterprises represented at the meeting has not been learned.

William Fogle, about 22 years old, employed on the farm of Harvey Boone, near Woodstock, died Thursday from the effects of a dose of paris green, taken, it is believed, with suicidal intent. He had been drafted and worry over fear of being called into service, it is said, prompted the act. Fogle husked corn for his employer until noon the day of his death, when he came to the house for dinner. After the meal he left, ostensibly for the field, but instead went to the barn, climbed into the hayloft and swallowed the poison. Shortly afterward he returned to the house and was taken ill. A partly filled bottle containing the poison was found in the hayloft.

Seventeen and eight-tenth miles on one gallon of gasoline was the remarkable performance of a Maxwell one-ton truck. This marvelous economy demonstration of the Maxwell truck (loaded) was accomplished in traffic in Detroit and over rural roads adjacent to the city. So far as shown by available data the Maxwell truck performance is by far the biggest mileage on a gallon of gasoline ever made by any truck. It is believed to be the world's record. Two features of the economy test make the Maxwell accomplishment more wonderful—the driver had never before driven a truck and the road used did not allow of any coasting to increase the mileage. An average speed of about 15 miles was maintained.

One of Wm. Stoner's most promising young Holstein cows, registered and valued at more than \$200, was shot by hunters on his farm, near Thurmont. A shot passed through one of her teats and cut the milk vein. The result in all probability will be an injury for life for the cow.

The demands on our coal mines have made fuel hard to obtain. Yet fuel must be had, for warmth and for cooking food. So the best thing to do is to make every shovel of coal do the most that it can. Do not throw away unsifted ashes. There is generally some good coal in them and it will pay to shake the sifter.

Pare potatoes thin, and boil the refuse for the poultry. Spread butter thin on your bread. Get out the syrup can for hot water. Eat to live in these days of self-denial. We don't know when this war will end, nor to what sacrifices we may be called. By practicing these little economies we will be better prepared.

A card of thanks was received from the superintendent of the Florence Crittenton Mission by the president of the Westminster W. C. T. U. acknowledging a donation of vegetables and fruits sent to them last week. Miss Hinchliffe said: "It is with sincere gratitude we acknowledge your splendid donation. Royer. Last evening the Girls Club of Grace Lutheran church gave their third annual Thanksgiving Progressive dinner. Although the weather was very disagreeable and at times it rained, it could not dampen the spirit of the girls who eagerly look forward each year to this occasion. Twelve courses each course being served at a different home, of all the good things that go with a Thanksgiving dinner were enjoyed. One of the pleasantest features of the evening was the visit to the hospitable home of Mr. and Mrs. E. O. Cash, where they were heartily welcomed.
