DELCO-LIGHT PRODUCTS REPRESENTING

LIGHT WATER POWER

At the touch of a button At the turn of a faucet At the closing of a switch

No picture of the plant is necessary, its rugged features are known to 150 of Carroll and Howard counties' best citizens. It was built so substantial, was so practical, so economical that it was specified and used by the United States, Great Britain, France and Italy, almost exclusively, for war purposes.

There Must Be a Reason

It is built in the world's largest single story factory building and is backed by millions of dollars of capital. No special introduction is needed because 1,000,000 automobile owners have found it to be the best that human ingenuity can produce.

70,000 farm and country home owners have found it to be practical, economical and 100 per cent simplicity.

It has no competitor as to price, because it is turned out by the thousands per week and finds a ready market without unnecessary expense. It burns the kerosene now used in the lamps and lanterns.

Is Air cooled Is void of complication Has no controls

Install it anywhere Press the starter and it starts Let it run, it stops itself

It is self contained and independent without a competitor in the field that can equal 50 per cent of its superior features and lives up to its name.

DELCO-LIGHT

The World's Standard Independent Lighting Plant

It is the most efficient, most practical, most nearly fool proof piece of electrical apparatus that has ever been designed and owes its existence to the superior engineering skill at its disposal.

Delco-Light and Delco-Water

Have been tried and not found wanting.

It is represented by men who know how to make the installation and attend to the after requirements.

An expert electrician is in the territory to attend to the engineering requirements. It furnishes electric light Operates the milker Turns all the hand turned appliances It furnishes electric power Pumps the water Heats the iron and hatches the chickens

And It PAYS For Itself In The Time and Labor It SAVES

EDGAR M. FROUNFELTER, New Windsor, Md. Phone 56. Care of Blue Ridge Garage. Edgar M. Frounfelter, Washington, D. C., care of Delco-Light Products, 1210 E St., N. W. Factory Representative for Carroll and Howard Counties.

Is Your Vision "Veiled"?

Looking through your reading glasses at objects a few feet away is like looking through a heavy veil—your vision becomes blurred. But what a transformation when you wear KRYPTOKS (pronounced Crip-tokks). With these glasses you see as with the eyesight of childhood because the upper part gives you perfect vision for far view, and the lower part for near view. KRYPTOK Glasses cannot be distinguished from single vision glasses because their smooth surfaces are free from the seams or humps of old-style bifocals.

ARTHUR G. TRACEY, OPTOMETRIST HAMPSTEAD, MARYLAND.
