Magin-Stultz.

On Wednesday, November 26, a very beautiful wedding took place when Miss Virginia Stultz, of Medford, daughter of the late Mr. and Mrs. Lewis Stultz, became the bride of Mr. Frank Magin, son of Mr. and Mrs. Frederick Magin, of Smallwood. The ceremony was performed at 3 p. m., at the residence of Rev. W. L. Seabrook, after which they were taken to the home of the groom, where a sumptuous supper awaited them. About 8 p. m., they were met at the door by a happy band of serenaders, after which refreshments were served consisting of ice cream, cake of all kinds, oranges, bananas, pop and chocolate. The bride and groom have the best wishes of the whole community for a long, happy and prosperous life.

While Harry L. Cratin, Union Mills, was adjusting the lights of his automobile, Howard Rusher, Kingsdale, came into the garage and exhibited to him an army revolver. While Rusher was handling the weapon it was accidentally discharged. The bullet passed within a few inches of Mr. Cratin's head and tore a hole in the radiator of his automobile. The last thing that a young fellow ought to be afraid of is overwork.

DON'T OVERLOOK
The fact that there was never a better time than the present to buy that Phonograph for your home

Here is a talking machine that represents beauty, tone, service and satisfaction. We mean what we say when we tell you that the RISHELL is the best from all standpoints. It plays all makes of disc records, either lateral or vertical cut. The tone is remarkably sweet and clear. The design is all that an artist could wish, and is equipped with a silent, efficient motor. These points alone make it worthy of your investigation before you purchase a phonograph. Call and spend a half hour in our music room listening to your favorite artists.

Can you read this type clearly and with the same pair of glasses see distant objects?
KRYPTOK GLASSES
THE INVISIBLE BIFOCALS

With Kryptoks you can see far objects just as distinctly as you can read the type on the printed page. They give you near and far visions in one pair of solid lenses.

Whenever your glasses begin to feel uneasy it's time to find out "why."

Perhaps they pinch your nose; perhaps they have become loose and out of focus, or, more likely, perhaps your vision is changing.

You will surely be better pleased to know, and by coming to us not only will you know, but the fault will be remedied satisfactorily.
