

Manchester Letter.

It is with deep sympathy that we write about the death of Angel moving from our midst Miss Letha Royer, who was well known and highly respected. She was much beloved in all the circles she moved, ever striving to do right, and by word and example, admonishing others to do the same. She will be missed, not only at home, but also in the schools of Carroll county, being a teacher when she was stricken with influenza, which with a complication of diseases, caused her death.

From an Akron, Ohio, letter we take the following extracts: "Carpenters are getting \$10 per day here. The rubber business is an immense thing, probably close to 100,000 people are employed in the rubber works. The Goodyear Company alone has about 28,000 employees."

The U. S. postage stamps did not come into popular use until 1847, when a genius discovered a plan to have mucilage dried on the back of the stamp so it could be "licked" instead of carrying mucilage bottles.

There is a large city where on Sunday mornings, nearly 300 employees gather at 15 minutes of 9, register by the time-clock, same as week days; then instead of going behind the counters, take the elevators, go to the roof garden, where the minister has a pulpit, the choir of singers have their places, and until 10 o'clock, when the benediction is pronounced, they give thanks and worship our God, for blessings received. You will be surprised that this city is Shanghai, China, and several other churches in that city do likewise.

From Northern Iowa comes the record-breaking news of sleighing this winter. There has been continuous sleighing since Nov. 23rd, making 82 days, and by all appearances yet more of this cheap and healthful mode of traveling before the "gay green grass comes creeping."

We do not believe in war or cruelty, but when the Allies agree to punish the merciless Turks for the many cruelties and persecutions done to the harmless and unarmed Armenians, is right. They should be taught to consider the rights of the poor Armenians—brothers in flesh, and should be brothers in spirit.

"We are never too old to learn," is again illustrated by an old man, who, 94 years ago, determined to learn to read. Now, at the age of 92, he is a good reader, and can preach a sermon. He learned to read at the age of 63.

The U. S. mints are interesting. News from these places is wonderful to the average person. Nearly four millions of pennies were coined last year. Now, there are none in the mints some in the sub-treasuries, and are scarce among the merchants, especially those who sell sodas and ice cream, and on the trolley lines, operating in the large cities. It costs four cents per hundred to finish them, ready for circulation, and only two cents to make a \$100 bill. Of course, \$5, \$10, \$20 or bills of higher denominations, cost little, if any more, the figures on the dies only needing to be changed.

From a lady in Dundee, Ills., comes these deep thoughts on the present day situation: "The world is not growing better; there is an unrest that seems to be felt by many people. There is great need of work, the night of darkness is surely coming. Some say 'there is a crisis coming,' others say, 'we are on the verge of a new era,' while still others declare, 'there is a crash coming.' The merchants are anxious to sell their stock of goods now on hand, forgetting about the large profits they have made when prices were rising, and fearful now that they should suddenly drop, causing them to lose part of the big profit."

PLEASANT GROVE AND REESE.

The missionary service was a success in every way. Mesdames Wilbur Arnold and Magee had charge of service which consisted of exercises by the intermediate classes of girls and boys and recitations by several young ladies and the smaller ones. Little Ethel Martin recited and shook her money bank to give the purses inspiration and it truly did, for the school made up the quota with a little over the top. Collection for the day was about \$23. Ladies' class kept the banner with \$8.25. Thanks to all.

Ladies' Aid will hold their regular April meeting at the home of Mrs. Butler Goruch, the regular time, April 10th. Make an extra effort and fill the house.

The L. T. L. met on Sunday and was led by Mrs. U. H. Shipley. Two of the Legioners, Florence and Morgan Myerly presented the President, Mrs. Magee, who has been on the sick list with a beautiful blooming plant, which was much appreciated. All come to

Sunday School and preaching following on Sunday, Rev. Justice's last service before Conference.

The Misses Read are spending part of the week visiting Mrs. V. Brown and other friends in Reisterstown.

Mrs. Chas. Bell has recovered enough from her operation to return to her home.

Great sympathy is expressed by all our residents for little Margaret Murray, who was struck by a truck as she left school bus to enter her home. She is doing as well as could be expected and is in the children's ward at St. Joseph's hospital, Baltimore. This is time for the L. T. L. children to act on their pledge and give or send cheer to the afflicted. The above address will reach her.

Mr. Cahall and wife have moved to the tenant house of Mr. Denton Leister. Mr. Isaac Rickle and family will move from the farm of Miss Jessie Matthews to Mr. Trayer's farm.

Mrs. Grace A. Weyrich, of Windsor Hills, spent Saturday and Sunday

with Mr. J. F. Magee and family. Mr. and Mrs. Theodore Shipley had as their recent guests from Baltimore, Mr. Henry Day, Eugene Shipley and Covert Craft and family.

"You may accept this as a true story" remarked a man the other day, "the fellow who spends much of his time knocking the town doesn't erect any of its buildings and that is what Westminster needs just now—new buildings, not knockers."

Chamberlain's Cough Remedy.

The great benefit derived from the use of Chamberlain's Cough Remedy has been gratefully acknowledged by many. Mrs. Benjamin F. Blakney, Decatur, Ill., writes, "Chamberlain's Cough Remedy is by far the best medicine for colds and coughs we have ever used in our family. I gave it to my children when small for croup and have taken it myself."

Why man—
we made this
cigarette for you!

CAMELS fit your cigarette desires so completely you'll agree they were made to meet your taste!

Unique flavor, fragrance and mellow-mild-body due to Camels quality and expert blend of choice Turkish and choice Domestic tobaccos are a revelation! You will prefer the Camel blend to either kind of tobacco smoked straight!

With Camels you can go the limit without tiring your taste. They leave no unpleasant cigarettey after-taste; no unpleasant cigarettey odor!

To get a line on why Camels win you so completely compare them puff-for-puff with any cigarette in the world at any price. You'll prefer quality to coupons or premiums!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Mr. Joseph L. Mathias, East Main street, erected one of his latest design monuments for the Wise heirs, in Loudon Park cemetery, Baltimore, Wednesday. The stone was finished and hauled to the cemetery by his motor truck.

The part that fine steels play
in a
MAXWELL

There is a definite reason for the brilliant performance of a Maxwell car.

Lift the bonnet and you see the simplest of engines. Examine clutch and gears, and you see supreme simplicity.

The definite reason for Maxwell performance and endurance is the fine steels, those steels built to Maxwell's own formulas, that combine quality and rare strength, that defy time and the repairman.

This is the story of the Maxwell, the real cause for brilliant performance and long endurance. These steels do not burden the engine. They make its tasks easier. They flatten out a hill for the engine.

The combination of light weight and great strength—the ideal of Maxwell construction—is thus achieved.

And to obtain that rare combination of strength with quality means costly steels. So you will find that, pound for pound, the steels in a Maxwell equal those in any car built.

That is why the rise of Maxwell has been so marked; why nearly 400,000 have been built; why 100,000 are being constructed this year; why these will fill but 60% of the demand.

Klee & Hoff, Agents, Westminster, Md

What's Your Low Score?

CAN you do the course under the other fellow? The true golfer who wants to feel himself going strong must be in trim—nerve steady, eye clear, free from bodily weariness. Plenty of Ice Cream will keep you physically fit. Ask your doctor—ask any physical instructor!

But, for your own sake, be sure it's
