Special Steels add Life to the  
**MAXWELL**

These steels are the product of the highly developed Maxwell laboratories, where steels have been studied, analyzed and tested for years.

They are made to Maxwell's own formulae and enable the Maxwell to stand punishment that few cars can meet successfully.

They lessen the task of the engine and make it more responsive, quicker

in action and a delight to handle.

These are some of the virtues which have won friends for the Maxwell in ever increasing numbers and give it a longer life than many cars of higher price.

Today there are approximately 400,000 Maxwell's on the world's highways. The year 1920 will add 100,000 more.

# BETHLEHEM

## Volume and Value

The Bethlehem Motors Corporation will export more trucks this year than any six thousand dollar truck manufacturer will build. Visualize this tremendous Bethlehem Volume and its effect on Bethlehem Value. Low sales cost, low manufacturing cost per truck. A list price that includes utmost value per cost dollar.

Neither underbuilt to meet a price nor overbuilt to justify a price, Bethlehem Motor Trucks are representative of the Middle Ground—that point where value is greatest. Buy your Motor Truck on Facts.
