**INVENTIVE GENIUS
ROBS CALOMEL OF
NAUSEA AND DANGER**

**Doctors' Favorite Medicine Now
Purified and Refined from All
Objectionable Effects. "Calo-
tabs"—the New Name.**

What will human ingenuity do next? Smokeless powder, wireless telegraphy, horseless carriages, colorless iodine, tasteless quinine—now comes nausealess calomel. The new improvement called "Calotabs" is now on sale at drugstores.

For biliousness, constipation and indigestion the new calomel tablet is a practically perfect remedy, as evidenced by the fact that the manufacturers have authorized all druggists to refund the price if the customer is not "perfectly delighted" with Calotabs. One tablet at bedtime with a swallow of water—that's all. No taste, no nausea, no griping, no salts. By morning your liver is thoroughly cleansed and you are feeling fine, with a hearty appetite. Eat what you please—no danger—go about your business.

Calotabs are not sold in bulk. Get an original package, sealed. Price, thirty-five cents.—(adv.)

Kryptoks Have Ended the Eyeglass Troubles of Thousands and Thousands of People.

Thousands and thousands of people whose eyes need help for both near and far vision are wearing Kryptok (pronounced Krip-lock) Glasses today with perfect satisfaction.

If you know the bother of fussing with two pairs of glasses, one for near vision and one for far vision; if you know the bother and inconvenience of peering and scowling over reading glasses, or removing them when you want to see at a distance;

if you know the embarrassment of wearing ordinary conspicuous bifocals, then Kryptoks are just the glasses for you, too. Let us explain them to you. They are the only INVISIBLE bifocals.
