

CAPE HORN.

Mr. Oliver Reed is making large improvements about his residence. Mr. Walter Garrett had a pimple on his leg. He is hosed up for a few days, but is improving rapidly. Most of our people are plowing corn this week. Mr. Howard Viegling our baseball score-keeper, run in hard luck last Sunday, when he run out of gas coming home from Patapsco, and he pushed Lizak until he was out of wind. Good luck to the Meadow Lawn correspondent. Patapsco baseball team will cross bats with the Cape Horn team. Let the Pike boys come out and root. Paul Smith is still excited from the scare he got Saturday night.

Ford
THE UNIVERSAL CAR
Sixteen Years' Experience

For sixteen years, a corps of metallurgists have been studying and constantly perfecting the steel that goes into every part of the Ford car and the Ford One Ton Truck. Each separate part has been studied to learn the type of steel best fitted for it. Parts receiving constant surface wear are made of hard, flint-like metal; parts subjected to great vibration or resilience are made of softer, springy steel. Every part is made according to its use—that is every genuine Ford part is.

But there are also counterfeit "Ford" parts. They are sold as side-lines by mail-order houses, downtown stores, and many garages. The unsuspecting customer accepts them because they are called "Ford" parts.

To make sure of getting the genuine Ford-made parts, come to authorized Ford headquarters.
