Successors to Lock Jaw.

One of the saddest deaths known for years in the vicinity of Warfieldsburg, occurred last Friday morning when James E. Cook, aged 13 years and 9 months, son of Mr. and Mrs. Calvin Cook, died from the terrible disease, lockjaw. Young Cook was the picture of health and on August 6 while walking in the yard at his home trod upon a rusty nail which penetrated his foot for an inch or more. The wound was treated with different remedies. Seeing his condition was alarming called in two doctors who pronounced his ailment lockjaw and administered antitoxine which failed to give relief, the young man dying within 48 hours.

Battery Advice Too Common.

"Battery advice is free," says A. L. Boyd Willard Service Station Dealer, and like all free products it is a drug on the market. It is estimated that if a car owner would try to do all the things suggested by the trade papers, the car builders and battery manufacturers, he would have no time to drive, to attend to business or keep up a speaking acquaintance with his family.

"As a matter of fact, a battery does not need a great deal of care, and the average driver gets good results by putting in a little water every week or so, and making regular calls at the service station."

"It is always important to give a battery the right start, and the first thing every purchaser of a car—new or old—should do is to drive around to the battery service stations so that his battery could be registered and given the right sort of start toward a useful and active life."

FIGHT FOR SUFFRAGE WON

NEARLY 27,000,000 WOMEN WILL HAVE RIGHT TO VOTE THIS FALL—REGISTRATION IN CARROLL COUNTY WILL BE SEPTEMBER 28 AND OCTOBER 5. ABOUT 350,000 WOMEN IN MARYLAND CAN VOTE.

We congratulate the fair "suffs" on their victory in having the Tennessee Legislature to ratify the Suffrage amendment. Since the ratification various charges of bribery have circulated against anti-suffragist and the regulars, which is usually the case after victory.

The Supervisors of Elections in every county of the State will meet and make every mechanical process of registration and voting to the end so that the women voters will not be subjected to any annoyance and delay.

About 405,200 women in Maryland over 21 years of age will be able to vote this fall, it is estimated. From reports a number of women in this city have announced their intentions not to register. All white women should register as the colored will take this opportunity. The days of registration in Carroll county are September 28 and October 5.

The biggest obstacle confronting the Supervisors of Election is the county poll books. It seems that the county will be put to the expense of furnishing new books as the old poll books are filled to running over on certain letters. If time is too short to secure new books why then they will have to arrange pages after each letter until new books can be secured and the names transcribed.

Nearly 10,000,000 additional women will be enfranchised, at least half of them in States now regarded by professional politicians as doubtful. More than 16,000,000 women already hold the right to vote for President under State laws, but only 7,000,000 were entitled to vote for members of the Federal Senate and House of Representatives.

Moreover, the suffrage amendment confers upon women the right to hold office. Under that measure, they enjoy the same privileges as men, and it need not be surprising if women in increasing numbers aspire to seats in both branches of Congress or even aspire, in time, to the Presidency and Vice-Presidency of the United States.

In the South, something like 4,000,000 negro women are enfranchised and until or unless the Southern States find means of barring them, many more thousands of them will be found voting, than is the case now with negro men. In most Southern States men of the negro race have been disenfranchised in great numbers by "grandfather" clauses in the State Constitutions, by educational and other tests.

But it is not in the South that national interest will center with woman's suffrage going into effect by constitutional mandate. Not more than one or two of those States, if any will be rendered doubtful as between the national parties, it is assumed. But it is by no means certain that the States of the East and Middle West will not be profoundly affected politically by extending suffrage to women, thereby increasing approximately 100 per cent. their voting population.

Leaders of both parties are quite aware of this and for weeks the two groups of managers have hustled themselves in behalf of suffrage, each seeking to make capital out of the situation. Governor Cox has been the more ardent advocate perhaps of ratification and, certainly Democratic leaders generally have been more enthusiastic about it, feeling that if the Democratic State of Tennessee should provide the thirty-six votes the Democratic party at large would profit more in the coming election.

The States in which women will vote for the first time in November if the amendment is finally proclaimed, where their balloting will have greatest interest are Maryland, Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, New Mexico, Ohio and West Virginia. As previously shown, the vote of the women in the South this year probably will have little effect upon the national politics on that section.

It was estimated that in the nine doubtful States just listed the number of women above 21 years of age are as follows: Maryland, 405,200; Connecticut, 368,844; Delaware, 64,283; Massachusetts, 1,181,923; New Hampshire, 148,909; New Jersey, 810,324; New Mexico, 80,467; Ohio, 1,538,175; and West Virginia, 313,465.

In addition to these nine States women will vote for the first time for members of the Federal House and Senate in 10 other doubtful States, Illinois, Nebraska, Tennessee, Rhode Island, Indiana, Maine, Minnesota, Missouri, Wisconsin and Kentucky.

Including Tennessee, the States which have ratified to date are: Wisconsin, Michigan, Kansas, Ohio, New York, Illinois, Pennsylvania, Massachusetts, Montana, Nebraska, Minnesota, New Hampshire, Utah, California, Maine, North and South Dakota, Colorado, Rhode Island, Kentucky, Oregon, Indiana, Wyoming, Nevada, New Jersey, Idaho, Arizona, New Mexico,

Oklahoma and West Virginia. Those which rejected ratification are: Alabama, Georgia, Mississippi, South Carolina, Virginia, Maryland, Delaware and Louisiana. The States which have not acted are: Connecticut, Vermont and Florida. North Carolina Senate has postponed action until January.

YOUNG SHIRK WALKS.

Feet Were Frozen in Harry Geiman's Barn Last Winter—Both Amputated.

The Baltimore Sun of Saturday says: The nurses in the accident ward of University Hospital are regretting the coming departure of Howard Shirk, 11 years old, of Westminster, who has been a patient in the ward since January 6. News of Howard's discharge reached his nurses yesterday.

Howard was taken to the hospital on a cold day in January. The men who brought him told the physicians that they found him half-frozen in a barn near Westminster. His feet were severely frostbitten and had to be cut off at the ankles. It was not long after his arrival that he smiled his way into the hearts of his nurses. He told his nurses that he was a "handy man" for a farmer near Westminster.

During his long stay in the ward the nurses have taught him to walk. He can not balance himself very well standing still, but he loses no time when walking. When asked what he expects to do when he becomes a man, he replies: "I want to be a doctor like these here at the hospital. When I get older I am going to study hard and try to be one."

This is the lad that was missing from the home of Mr. Harry Geiman, near this city, last winter, and froze his feet sleeping in the barn after a walk from Sykesville, after being taken there by a masquerader.

On their return the steer will be killed by William Curry and roasted. All conveniences for a big bunch of pleasure has been made ready for the entertainment. Tables have been arranged in the orchard and the outfit for the killing and roasting of the steer is ready.

Meeting of Ladies' Aid Society.

The last monthly meeting of the Ladies' Aid Society of Ebenezer Methodist Church, of Westminster, of Winfield, was held at the home of Mrs. Alma Shipley with a large attendance. The guests were royally entertained.

The meeting was opened by the president, Mrs. L. V. Zille. Scripture reading by Mrs. C. V. Conaway. The program consisted of singing, reading, a solo by a little boy which was very much enjoyed by all and a reading by Mrs. Mowbray, wife of the pastor, which was a very beautiful composition of her own on the Society and its many features—mentioning the officers and members in appreciation of their friendship and courtesy; speaking nicely in general of the Society as a whole and not forgetting the valued and faithful president and her splendid work.

Pastor Mowbray gave an interesting address. The roll was called and a good collection was realized. Refreshments, consisting of ice cream and cakes were served.

The next meeting will be held Thursday, September 2nd, at the residence of Mrs. Lee Smith, near Winfield.

THE PRIZE WINNERS

FIRST AND STREAM CLUB CLOSES—GEO. R. BABYLON RECEIVES LARGEST PERCENTAGE IN EVENTS—EXCELLENT TROPHIES.

The Forest and Stream Club closed their camp on the Monocacy River on Wednesday, August 11th, after the most successful year in its entire history of 46 years of living out of doors. The club added ten new members to its roster before going into camp. The fish suppers of the club are so well known that the cooks have difficulty in handling the crowds. The attendance each year was beyond anything of previous years. Quite a number of Baltimoreans are members of this club. On Friday evening much excitement was caused by one of the members bringing into camp a small mouth bass weighing one ounce less than three pounds. The next day one weighing three pounds was brought in and it was this bass that secured its owner the Silver Cup and the fountain pen. The club has among its members some of the best rifle shots in Maryland. Most of the casters have beat their records of last year and it is thought that the best of them will participate in the Tournament of the National Casting Association which will be held in Columbus Ohio, on August 25th.

The Monocacy River and its tributaries flow at the foot of the Blue Ridge Mountains, and a trip into this section discloses the most beautiful part of Maryland, it is the usual thing to pick up Indian relics such as hatchets, spear heads, arrow heads, etc.

The Home Woven Mills thru George H. Melville, of Sykesville, of ferre enough goods to make an overcoat to the member of the club catching the largest bass during the balance of the season. And there is no doubt but that a mighty effort will be made by each member to win the overcoat.

COLORED PEOPLE PICK NOMINEE TO OPPOSE O. E. WELLER.

W. ASHBIE HAWKINS, COLORED LAWYER, CHOSEN TO RUN FOR U. S. SENATE.

A committee of representative colored people, indignant at the refusal of Republican leaders to recognize them in patronage, met Monday night at Trinity Baptist Church, Druid Hill avenue and McMechen street, Baltimore, and nominated W. Ashbie Hawkins, colored, attorney and leader among his race, as a candidate for the United States Senate.

Attorney Hawkins will compete in the election next November as an independent Republican opposing O. E. Weller, Republican. The 40 or 50 negroes who unanimously voted for his selection as standard-bearer of the colored race, declared they represent an overwhelming proportion of the colored vote in that city.

Under provisions of the State Election law it will be necessary for the committee to secure the signatures of 500 voters to the petition for attorney Hawkins' nomination. The petition must be filed with the Secretary of State. No difficulty in securing that number of signatures will be experienced, the committee declared.

They formed the Independent Republican League, elected officers and designated an executive committee to prosecute a vigorous campaign through the State for their candidate.
