**To the Man who is Interested in Truck Tire Economy**

CAREFUL truck owners are figuring their costs pretty closely these days—tire costs along with the others.

It is no longer "clap on a new tire and hang the expense." At least, not with the owners we come in contact with.

Service, wear, traction, cushioning qualities, construction are coming to mean more than they used to, not only to owners but to drivers of motor trucks.

And the more they mean, the more we find truck owners and operators turning to the new United States Grainless Rubber Solid Truck Tire.

The tire that overcomes *splitting and base-separation*—that goes on its way day after day, month after month, wearing down *smoothly and uniformly* without undue attention and without expense.

Handling United States Solid Truck Tires in this city is in keeping with the progressive policy of our concern.

Something new—something a little in advance of the times—is always coming out of the United States Rubber Company.

Before ordering a new truck, consult us about the kind of tires to specify.

 Little Charles Shaffer fell from a porch, the distance of not more than three feet, breaking his arm at the elbow.  
 The people of Patapsco all feel sad

at the thought of Wesley church being destroyed by fire.

**Clothing Factories Close Down.**  
 The clothing factories operated in this city by Hamburger and Sonneborn, of Baltimore, have been closed. The former until January 1st it is said and the latter for six weeks. The closing necessitates the women connected with the factories to seek employment elsewhere until they open.
