**Torpid Liver**

Black-Draught "has no equal for headache, sour stomach, torpid liver and feverish colds..." declares Mrs. Annie Whitmore, of Gate City, Va. "If it is easy to take and does not gripe, as a lot of medicines do," she adds. "It is good to take in a hot tea for colds, or can be taken in a dry powder. I can't say enough for Black-Draught and the sickness it has saved us."

**Theford's BLACK-DRAUGHT**

has been found a valuable liver medicine, in thousands of homes. "I do not use any other liver medicine," says Mrs. Mary O. Brown, of Europa, Miss. "It is splendid for sour stomach, a bad taste in the mouth or torpid liver. I keep it all the time, use it with the children and feel it has saved us many dollars in doctor bills and many days in bed."

**Yours are not Kryptoks—the surface isn't smooth**

Take any bifocal lens (except the Kryptok) and you will find across its surface a conspicuous line, seam or hump which you can see or feel.

Then take a Kryptok lens, look at it carefully. Rub your finger over the place where the near vision and the far vision segments are fused together. You can neither see nor feel any line, seam or hump. The Kryptok lens is absolutely clear, smooth and even. It is the only invisible bifocal.

Kryptok Glasses are for men and women who need glasses for both near and far vision. They end the inconvenience and awkwardness of continually removing or peering over reading glasses—or of changing from reading to distance glasses. We are prepared to serve you with Kryptoks, or with any other glasses which an examination shows that your eyes need.
