Grand Jury Report.

To the Honorable, the Judges of the Circuit Court for Carroll County:

The Grand Jurors of the State of Maryland, for the body of Carroll County, beg leave respectfully to report.

That they have been in session for four days and in that time have examined 78 witnesses, have found 43 indictments and have investigated all matters brought to our attention. The most serious charge which we were called upon to investigate was the charge of murder brought against Benjamin Harry Green, and upon which charge he was held under five thousand dollars bail for his appearance. In this charge the evidence shows that Green was assaulted in his own house with a deadly weapon, and that he shot his assailant only after he was himself twice wounded, under these circumstances we consider the case as justifiable and therefore we have not returned any presentments against him.

We wish to call the attention of the automobile dealers of the county to Chapter 422 of the Acts of 1920, which requires them to make quarterly reports of their sales to the County Commissioners and provides a penalty for neglecting to do so. We find that the dealers in this county have uniformly neglected to comply with this requirement of the law, but as we deemed it due to their not having knowledge of the existence of the law, we thought best to recommend that they be notified by any presentment which is brought against them. We feel sure that before another Grand Jury is convened all our dealers will have complied with this provision of the law.

As required by law we visited the Jail and the County Home and at both institutions we found the county's property well cared for and inmates properly treated and cared for. We would recommend that steps be taken to make the lights in the barn at the County Home less dangerous. At the County Home we were delightfully entertained at refreshments by the Steward and his family, and at the Jail by the Sheriff and his wife for which we extend our thanks to these competent and considerate officials.

A charge of bastardy was brought against John T. Hyde, but we find no evidence against him and we therefore recommend that his bond be released.

We have made an investigation of numerous complaints of the violation of the law prohibiting the sale of intoxicating liquors in Carroll county, and have indicted against a number of persons for the sale of different concoctions of alcohol, but in the process of our investigation information came to us of what, while not appearing to be violations of our State law, appeared to be violations of the federal law, that is the removal, particularly in the night time, of large quantities of liquor from the McGinnis Distillery in this county to points beyond the borders of this State and we would recommend that the attention of the proper federal authorities be called to this

matter. And now having completed all matters brought to our attention we respectfully ask to be discharged.

JAS. PEARRE WANTZ, Foreman.
Harry K. Myers, Secretary.
Grand Jury adjourned yesterday.

WOMAN BEATEN BY THUGS IN BEDROOM.

Her Skull Fractured by Blow With Flat Iron in Apartment in Philadelphia.

Philadelphia, Pa., Nov. 2.—A negro attacked Mrs. Jane Burton, 27, beating her unconscious with a flat iron in her bed at the Hyland Apartments, 412 S. Broad street.

The negro escaped through a room adjoining that of Mrs. Burton.

When persons living in the apartment house rushed into Mrs. Burton's room they found her unconscious on the bed. Her head was crushed and bleeding.

The negro gained entrance to the room, police say, by going up a back alleyway, scaling a 12-foot fence and climbing through a cellar window. He apparently escaped the same way, as the gate was locked.

The police say robbery was the motive. Mrs. Burton's pocketbook, valued at \$6 and a wrist watch, valued at \$40, were stolen. The electric iron with which the negro struck Mrs. Burton, had been used by her just before she retired.

Wonderful Community Show at Keysville.

You would have known that Keysville was on the map if you had been anywhere near that section of the country. All the morning, buggies and machines were busy bringing the exhibits and by noon exhibits numbering over seven hundred were in place. It was the largest first exhibit Carroll County ever had.

Judging of exhibits was done by Miss Mason, Domestic Science Teacher, Westminster High School, and Mr. Ballard, Garden Specialist, of the University of Maryland. The afternoon was spent in viewing the exhibits, and meeting friends. At 7 o'clock, the band started and the parade began. Then the fun started in earnest. All kinds of vehicles were entered, tractors, wheelbarrows, horses, autos, etc. The Detour Band furnished the music, and fireworks increased the light, glows and dainties were very much in evidence.

The exhibit occupied all of the available space, so everyone had to stand during the program. Standing room was taken, and the yard was full of interested spectators. Only a short program was given. Mr. Ballard gave a talk on "How to Select and Exhibit" and gave points on judging. Mrs. Everett talked on the judging of the Women's work and gave points to remember on the selection of exhibits.

The exhibit was worthy of any community, and shows what can be done when the local people are interested. All honor is due to the very faithful committee.

As an all around exhibit we do not think it has been surpassed in the country. There were larger exhibits of game work, and some more corn or potatoes, but none had a better general exhibit, from the bread and butter, both of which were worthy of mention to the vegetables. Don't let this be the last, Keysville! Let it be only the first annual show.

OWNER CAN WITHDRAW WHISKEY

Liquor for Personal Use May Be Stored in Warehouses—Supreme Court Rule.

Washington, November 8.—Storage of lawfully acquired liquors in commercial warehouses and the transportation of such stocks to the home of the owner is not prohibited by the Volstead Act, under a decision handed down by the Supreme Court, at Washington.

In passing upon the appeal of William G. Strick, of New York, from decisions of lower courts refusing to enforce internal revenue officials from seizing liquors he had placed in a room rented from a safe deposit company, the Supreme Court reversed the lower courts and held that the injunctions should be granted.

The effect of this ruling had not been fully appraised by internal revenue and prohibition enforcement officials. The belief was expressed, however, that the result might be the release of some 10,000,000 gallons of intoxicating beverages which have been stored in warehouses since January 16, 1920.

Records on file here show that in addition to immense quantities of liquors purchased and stored by individual consumers there were in storage when the Volstead act became effective large stocks held by hotels and restaurants as reserves. Whether these latter stocks come within the ruling has not been determined. It was anticipated that test cases will be filed soon on this and similar questions arising from the undetermined scope of the new interpretation of the Volstead act.

The regular meeting of the Board of Education was called to order in the office of the Board at 10:30 a. m. on Wednesday, November 3rd. Commissioner Foeser was absent.

All bills presented to the Board, with the exception of one which was to be further investigated by a committee consisting of President Wantz and Supt. Unger before its approval, was ordered paid.

The Board, after a very careful review of its financial situation, the present prices of material, and the lateness of the season, deemed it best to postpone work on the Johnsville building until spring, at which time this building will be constructed.

And in view of the fact that all the money allowed in the budget for the Pleasant Gap building has been exhausted, Supt. Unger was authorized to inform Mr. A. H. Griffie, who has had charge of this work, to take every precaution necessary to protect what has been done there until sufficient funds have been secured to proceed further with the work.

Requests for contributions for the purposes indicated from the following schools were presented. The Board contribution \$10 to the amount raised in each case.
