The Newest Near East Geography

THE accompanying map aims to show the extent of the operations of Near East Relief and also by contrast how comparatively limited is the Armenian area in the Near East controlled by the Bolsheviks. Wherever in the Near East there are destitute Armenians, Syrians, Greeks, Jews, Assyrians, or others, needy and oppressed, regardless of race or creed, there Near East Relief follows. From Constantinople to Bagdad, from Port Said to Baku, even into Persia, the protecting arms of Near East Relief have reached until today its work is far more extensive outside the country of Armenia than within.
