

**BUZZARD'S GLORY.**

Well, we were at Jacob's serenading last week and had one grand old high time. There were plenty to eat and drink, to which all did ample justice. The music was furnished by Zack. The first on the program was a wild tiger jig, hit up by Dr. Wike, which tickled Abe Shafer so that he panted like a 900 pulling Fall's Hill. After the Doctor tramped on several corn patches. Jake took the floor and entertained us with a song, which ran something like this:

I just got married last Wednesday, boys,  
That's why you called around,  
To see that pretty little girl of mine  
Dressed in her wedding gown.

After this song the gents were all invited to the spring house where a five gallon keg of butter milk was opened, which was hit pretty hard. It must have hit the spot as Jake grabbed Abe Shafer and gave him the bear hug and said, "I can now live with you all the days of my life." After wishing Mr. and Mrs. Jacob a long and happy life together, all departed for their respective homes. Jacob Neudecker and Abe Shafer left in locked arms. They started East by sailing West, but we do not see how they would get lost, for Ed. Magee said they were each puffing on a cigar so hard that it looked like the head lights of an auto. Elmer says they left tinware enough for Noah to make 25 Lizzies.

Dr. Wike reported to the board of health that there are several severe cases of lazaritis around Cranberry and if more hickory oil is not used this disease will never be wiped out. Frank Sies and Aug. Shafer were seen drawing straws last Saturday evening to see which one had the right to take "Toothless" Mary to the movies.

Messrs. Charles Brehm and Adam Foster have been sawing logs for the past six months and are expecting a tooth pick saw mill in a few days to saw white Birch picks out of young chestnut suckers. Messrs. Brehm and Foster have a contract with a New York concern for 100,000 cords of tooth picks.

A rumor is in circulation that Jesse Null paid a visit to William Brehm one evening last week for several crates of eggs. Jesse and Bill got in a conversation about Willie Ebaugh's garden along Red Hill. Bill had Jesse all excited and on returning home he took the road to Hampstead instead of Mexico, in order to avoid passing Willie's residence.

**HANGS HERSELF ON LINER**

New York, May 6.—After toiling for months in stricken Hungary to gather passage money to America for herself and two children, Mrs. Catherine Idjevic today hanged herself on the liner Finland, at the very door of her goal. Her ambition to have the children become American's may not be realized, however, for they probably will be deported lest they become public charges.

**DANGEROUS MODE.**

"Look at that girl over there," exclaimed Doris. "She's wearing her hair down over her ears. Now I would never do that."  
"Why not?" asked her companion.  
"Don't you like the fashion?"  
"It isn't that. But some man might propose—and suppose I didn't hear him!"

**DAIRY**

**MILK PRODUCED FOR MARKET**

Monthly Reports Show Wide Variation Through Year—Cost in Winter is Quite High.

(Prepared by the United States Department of Agriculture)

In winter the cost of feed, bedding and pasture amounts to 39 per cent of the yearly cost of producing milk in a typical Vermont dairy section, while in summer it amounts to 15.9 per cent, specialists of the United States Department of Agriculture found as a result of a study covering two years in a section of that state where milk was produced for market. The report of this study is now published in Department Bulletin 923, "Unit Requirements for Producing Milk in Vermont." While the figures obtained show the requirements of producing milk in that particular section, and may be approximate of the requirements in similar sections, the specialists point out that they do not apply to dairy sections where other conditions and methods of management prevail.

It was found that 31.1 pounds of concentrates were required to produce 100 pounds of milk in winter, while to produce the same amount in summer only 8.7 pounds were necessary. Other requirements for producing this amount of milk in winter were: Hauling and grinding concentrates, 2 cents; dry roughage, 129.9 pounds; silage and other succulent roughage, 191.3 pounds; bedding, 11.2 pounds; man labor, 2.7 hours; horse labor, 0.6 hour; other costs, 55.5 cents.

In summer the unit requirements for producing 100 pounds of milk other than concentrates were: Hauling and grinding concentrates, 0.5 of a cent; dry roughage, 18.7 pounds; silage and other succulent roughage, 27.8 pounds; pasture, 0.1 of an acre; man labor, 2

hours; horse labor, 0.4 hour; other costs, 42.5 cents.

In one year it was found that 1,000 pounds of concentrates were required to keep a cow. Other requirements were: Hauling and grinding concentrates, 61 cents; dry roughage, 3,000 pounds; silage and other succulent roughage, 5,307 pounds; bedding, 283 pounds; pasture, 3 acres; man labor, 123 hours; horse labor, 24.1 hours; other costs, covering interest taxes and similar items on the dairy's share of buildings and equipment, but not including management, \$25.36. It was determined that the dairy's share of the total investment in buildings, equipment and herd amounted annually to 11.5 per cent of the total inventory value.

**GROOM COWS AFTER MILKING**

Dust and Germs Prevented From Contaminating Milk Supply—Do All Work Between Times.

The cows should not be groomed, bedded, or fed immediately before milking. This fills the air with dust and germs which get into the pail and contaminate the milk. The grooming is as good for the cows as good bedding, but do it during the day when ample time will be left before the next milking to allow the dust to settle.

**Benefits of Silage.**

Silage keeps the cattle in good physical condition. The hair is always oily and velvety, the hide is loose and pliable. The acids and juices of ensilage aid digestion.

**Balanced Ration Essential.**

It is just as essential for the dairy cow to be fed a liberal well-balanced ration as it is for the working man to get a good meal of well selected food.

**Duck-Laying Season.**

The duck-laying season generally ends with the last of August.

**GOLDEN WEDDING OBSERVED.**

Doctor and Mrs. Richard C. Wells, of Hampstead, Tuesday celebrated the fiftieth anniversary of their marriage. There was a family reunion at the old homestead. A large number of friends attended.

Dr. Wells, one of a long line of physicians, is well known throughout the county. He has been a prominent Democrat. Until a year or two ago he held the post of chairman of the County Central Committee.

For many years he enjoyed the friendship of the late Cardinal Gibbons and they frequently visited each other. The Cardinal was deeply interested in the Catholic mission maintained by Doctor and Mrs. Wells.

Dr. Wells has been practicing medicine in Carroll county for nearly 60 years. His father, the late Thomas Wells, his grandfather and those be-

fore him were also physicians. The family is descended from Capt. Edward Dwyer, who served in the Colonial Army.

Mrs. Ann Jamison Wells, his wife, is a daughter of the late Dr. William Douglas Jamison. She also is a descendant of a Colonial Army captain.

Among those who attended the reunion were their seven children: Dr. William D. Wells, Dr. Charles J. Wells, Assistant State's Attorney J. Bernard Wells, Walter I. Wells, of the Baltimore bar; Edward G. Wells, and the Misses Mary A. and Louise Wells.

**PUBLIC SCHOOL ATHLETIC MEET AT WESTMINSTER, MAY 21.**

There will be the Annual County Athletic Meet of the white school children of Carroll County on Satur-

day, May 21st. The events for girls will be conducted on the high school and Graceland building grounds, beginning at 10 a. m., after which lunch will be on sale by the Home Economics Department of the Westminster high school. The boys' events will take place at 2 p. m. on the Western Maryland College grounds.

After the track events the annual high school baseball contest will be played off for the championship, and the cup awarded by the Board of Education for the best team in the county. Mt. Airy has secured this cup two successive seasons, and will be one of the contestants for the cup again this year, and the other contestant will be Hampstead.

There are no admission charges to these events.
