"ROOSEVELT'S GREATEST DISCOVERY."

Perhaps no one thing meant more to Roosevelt's happiness than his accidental discovery that his vision was defective. "I had no idea how beautiful the world was," he exclaimed after glasses had "opened his eyes."

—And so it is with most of us; we are missing most of the world's beauties because—unknown to us—our vision is defective. Known that your eyes are 100 per cent efficient—don't "guess." We can fit you to a pair of real glasses, if you need them.

GEORGE L. STOCKSDALE

ATTORNEY-AT-LAW, WESTMINSTER, MD.

Telephone 7-W

Westminster, Md., August 1st, 1921.

Fellow-Republican:—

Next to the Judgeship itself, there is no more important office in the county than that of Clerk of the Circuit Court. The interests of the people of the county make it absolutely necessary that the clerk or his chief deputy be a man thoroughly qualified to care for those interests. No one can have greater fitness for the position than a lawyer, who has been for many years familiar with all the details of the work of the office and in the Court.

As such a lawyer, and believing that I have the necessary qualifications, I am seeking the nomination, and, if nominated and elected, it will not be necessary for me to seek some one with greater knowledge of the duties of the office to be my chief deputy, and as such deputy to be the clerk in fact while I am clerk in name, but pledge myself to give to all the work of the office my personal attention and supervision.

It will be impossible for me to see more than a very small percentage of the voters, and therefore I am taking this method to ask you to go to the primary election on September 9th and cast your vote for me.

Very Respectfully Yours,

GEORGE L. STOCKSDALE.
