REO

Speed Wagon

Has Revolutionized Transportation

Six years ago when first announcing this pneumatic tired truck, Reo said, "This Speed Wagon will revolutionize transportation."

Today that prophecy is a fact—a fact known to everyone who owns or drives a motor truck.

Not only has this Speed Wagon changed all methods of city delivery and invaded every field of commercial activity, but it has performed as great a service for the farmer, the stockman, rancher, orchardist and truck gardener.

Having done more kinds of hauling and delivering better than any other type of motor truck, it has also revolutionized truck design and manufacture.

To such an extent is this true, it may be said that every other practical commercial vehicle under two tons capacity is a frank copy or an imitation of this Reo—or is obsolete.

Today the world is geared to this Speed Wagon—it dominates the field regardless of carrying capacities.

Its success has been tremendous—unprecedented—because in conception, in design, in construction, it fits every business and meets every need.

Because of its wonderful qualities—its great power, its endurance and low upkeep—its fame has spread until there are now more than 55,000 Speed Wagons in service throughout the world.

Wherever motor trucks are known this Speed Wagon is known as the best.

Price, always the lowest, is now greatly reduced, while standard equipment has been increased by "Nobby Cord Tires all around."

This Speed Wagon will do your work, do it better and cheaper.

Economy is amazing—satisfaction supreme.
