

WHAT WHEN COAL FAILS

There are strikes and controversies about mining coal, and the wages for mining it. Famous geologists declare that "coal" is no longer formed as it was in by-gone ages. This is an age of electricity. Coal is an important agent used in forming electricity. Suppose with all the uses and abuses of coal the supply should give out! Prof. Scott, famous geologist of Princeton University says, "When it is no longer possible to keep warm in our winters, when coal is prohibitory in price or when it is not to be had at any price, we must migrate to a warmer climate."

THE HORSE AND THE BUFFALO

It has been reported that the horse has outlived his life of usefulness, but the contradictions, seen in everyday life, prove to the contrary. Long ago it was reported that the herds of Buffalo, valuable for its meat and fur, was becoming extinct. This is also a mistake, as hundreds of farmers in various states, are making it a business, and a paying business, raising both small and large herds of the once famous Buffalo. The Government is interested in this movement, and it will not be long before the toothsome Buffalo will grace our tables instead of 40c pork steak.

Miss Harriet Knight, Shopper, Says Her Work Is Interesting

For instance, last spring she sent hard candy and chocolates to China to some little American boys and girls—the family of an American Steamship Company agent.

She selects clothing, shoes and undergarments for an American Army Captain's family now stationed in the Philippines. And when she makes her selections for the Philippines, she has to remember that any other sort than canvas shoes will mould—on account of the climate. The clothing must be of cotton, too, for the same reason, as well as because it is cool to wear.

Then there are the Maryland friends of Hochschild, Kohn & Co., who have moved to other sections of the country. Miss Knight says she receives shopping requests from Portland, Oregon, from Seattle, Washington, from army posts in New Mexico and Texas, and from winter resorts in Florida and California.

Miss Knight cordially invites you to make use of her personal shopping service—she will shop with you or for you, as you wish.

TEMPTATIONS

It seems that the word "Tempt" is apt to interest many people whose minds are easily influenced. The truth of this assertion is readily seen since prohibition has come into our midst. No doubt our Saviour saw the need of putting in the Lord's prayer, the phrase, "Lead us not into temptation."

A town in Illinois of no mean size had a policeman until it was deemed unnecessary to incur that expense. He was laid off, and the very next night some thieves backed up a truck to a dry goods store, loaded it with what they wanted, and got away.

SIT OR SET

Recently we received a little book of words that are frequently mispronounced.

A farmer had five boys. "Where were you when I called an hour ago?" he asked.

First boy—"I was in the barn setting a saw."

Second boy—"I was in the loft setting a pen."

Third boy—"I was in Grandma's room setting a clock."

Fourth boy—"I was in the pantry setting a trap."

The father turned to the youngsters, and said, "and where were you?"

Fifth boy—"I was on the door-step setting still," was the reply.
