Studebaker
This is a Studebaker Year

For the first eight months of 1921, our sales of Studebaker Cars were 41 per cent greater than for the same period of 1920, and 101 per cent greater than for the period of 1919. For the same period, our sales of Repair Parts were 13 per cent less than in 1920, and 3 per cent less than in 1919.

On September 1st, 1921, there were approximately 116,000 more Studebaker Cars in operation than two years ago, and yet our parts business is 3 per cent less than it was in 1919. This proves conclusively that—

Studebaker Cars are standing up in service and staying out of repair shops, to a degree unexcelled, we believe, by any cars of whatever price.

**ONE BRAND-
ONE QUALITY-
One Size Package**

All our skill, facilities, and lifelong knowledge of the finest tobaccos are concentrated on this one cigarette—CAMEL.

Into this ONE BRAND, we put the utmost quality. Nothing is too good for Camels. They are as good as it's possible to make a cigarette.

Camel QUALITY is always maintained at the same high, exclusive standard. You can always depend on the same mellow-mild refreshing smoothness—the taste and rich flavor of choicest tobaccos—and entire freedom from cigaretty aftertaste.

And remember this! Camels come in one size package only—20 cigarettes—just the right size to make the greatest saving in production and packing. This saving goes straight into Camel Quality. That's one reason why you can get Camel Quality at so moderate a price.

Here's another. We put no useless frills on the Camel package. No "extra wrappers!" Nothing just for show!

Such things do not improve the smoke any more than premiums or coupons. And their added cost must go onto the price or come out of the quality.

One thing, and only one, is responsible for Camels great and growing popularity—that is CAMEL QUALITY.

The NEW EDISON

The New Edison and books carry culture everywhere.

KNOWLEDGE of good music is one of the marks of true culture. You and your children can absorb all that is worth knowing in music, by having a New Edison.

This was proved once again when Bamboschek, principal conductor of the Metropolitan Opera Company, recently heard Muzio, the Metropolitan's great dramatic soprano, compare her voice with its RE-CREATION by the New Edison. He said: "The quality of

Miss Muzio's voice and the quality of her RE-CREATED voice are identical."

But the New Edison brings not only the beauties in music. Its perfect realism releases, at last, all the power in music,—and makes possible this newest, greatest step forward in music:

**MOOD MUSIC—
WHAT IS IT?**

Send the coupon for this new book which shows you how to use music for what it will do for you.

Some music has a miraculous power. It soothes you when you're nervous, refreshes you when tired, cheers you when blue. Mr. Edison determined to discover just which selections have this power. Two years ago, he organized a research, and placed it under the direction of Dr. W. V. Bingham, Director of the Department of Applied Psychology, Carnegie Institute of Technology.

The research showed that certain Edison RE-CREATIONS had this remarkable power to affect people's

moods and feelings. The psychologists called these RE-CREATIONS "Mood Music".
