CITY POLITICIANS PLANNING

ALREADY LOOKING AHEAD FOR CANDIDATES FOR MAYOR IN 1923—NEGROES TAKING POSSESSION OF DRUID HILL PARK—SEGREGATION ISSUE UPPERMOST.

(Special Correspondent).

Baltimore, October 6th.—Even before the campaign of this year is on the shelf, Democratic and Republican politicians are planning for the municipal campaign in the spring of 1923, nearly two years hence! Mayor Broening's candidacy for a second term is practically assured, and, what is more important, he has the inside track for a renomination. His grip on his party organization in the City has been strengthened by the side tracking of Colonel John Philip Hill, who is said to have had a covetous eye on the Mayor's job, as Chairman of the Republican City Committee and by the election of George W. Cameron, a close friend of the Mayor, as his successor. In his fight Mr. Broening will have the support of Senator France. This support will be "financial" more than otherwise if the Senator's pocket book shall not have been depleted by his campaign next year for a continuance of his residence in Washington. Of course Senator Weller despite what promises to be a permanent break between himself and Mr. Broening, will have to fall into line. Whatever else may be said of Mr. Weller, he is a straight party man.

Democrats are already scanning the field for a candidate for mayor. Former Mayor James H. Preston would have a walkover if he had not permitted his intolerable temper to way his course. He has alienated men and women who would like to be his friends. Frank Kelly and his supporters will not line up for Mr. Preston. There is a suspicion that Mr. Preston knows this and that he tried to block the harmony program agreed upon by Mahon and Kelly. That harmony state will be smashed to smithereens if Mahon tries to renominate Mr. Preston. The former Mayor's fee of \$10,000, (\$2,500, already paid on account) for his services in the lobby at Annapolis in 1920 in promoting legislation for the City will put a damper on any future political ambition which he may nurse.

The identity of the next Democratic Candidate for Mayor will not be as important as will be the issue in the campaign. That issue will be the rescue of Druid Hill Park from the negroes. The Republican Park Board, headed by J. Cookman Boyd, is responsible for the blighting presence of a swarm of negroes in what is considered one of the most beautiful natural parks in the world. The Republican board built a swimming pool for negroes in the beautiful park and then invited negroes to splash and to disport their chonv hued arms and legs ad libitum in the pool. The

invitation was accepted unanimously and with great glee. Baseball diamonds resounded with the whoops of negro players and spectators. When the negroes entered the park, the whites have gradually retreated. The Democrats will ask for public support in order to displace the Republican Park Board, two members of which, Mr. Boyd and General Agnus, were appointed by Mayor Preston. A Democratic Board will not ask that negroes be deprived of bathing pools and of recreation grounds. They will offer to provide these facilities to be equal to those now in Druid Hill Park, in the vicinity of Morcan College, a colored institution, on the old Hillen Road and within easy access of visitors from all sections of the City.

Republicans object to the injection of what they say is a racial issue in politics. Democrats are not making the issue. The issue makes itself among the masses of the people, who certainly cannot look to the Republicans for relief. Obviously they must look to the Democrats. It is most assuredly not a political issue when property owners seek protection from negro invasion. Efforts have been made to frame laws that would protect the homes of whites from too close proximity to negro homes. Federal Courts have upset these efforts. In the absence of laws to protect them, whites have resorted to mob violence, which the law respecting community condemnations. The recent Democratic State Convention missed its chance when it failed to insert a plank in the platform recommending an appropriation for the Lewis and Clark, to be approved by the Legislature, by which the best legal talent in the United States may be employed to frame and to defend in the courts laws by which the property of whites may be safeguarded, at the same time denying the colored population no privilege to find homes in those sections of the City in which they already predominate. The invasion of white areas has gone to such a limit that a serious public question arises in the sections. The fact which explains the abnormal suburban development in recent years. This exodus has no depreciated property, with consequent increase in assessments, that the exclusive white sections are compelled to bear greater burdens of taxation. Indeed, so insistent is the demand for protection against the colored invasion that an appeal will be made to the next Legislature for relief, an appeal which may go so far as to demand an immediate change in the political complexion of the Park Board in order to save Druid Hill Park before it is too late. Of course, the Carroll County members of the next House of Delegates, if Republicans would never tolerate such a thing. It would be directed against the bulk of their party in the City and State. Suppose such a condition of things existed in Carroll County as exists in Baltimore. City? Would the white men and white women of this county take the side of the colored people against white people? And yet the same question affects Baltimore so vitally that sooner or later though it may be hoped it never will, affect Carroll county in years to come.

Paris, Oct. 4.—Decision to maintain the present price of newspapers was reached by the newspaper owners of France at a general meeting here today. Speakers said that the price of newsprint was four times that of 1914 and that there appeared to them to be no prospects of a decrease. The advance in the sale prices of French newspapers generally has been to the equivalent of three cents from the former one-cent rate.
