Paint and save repairs

A FEW dollars spent on paint this fall will save you many dollars in repairs. Paint your farm implements, and you will get better service from them next year. Paint your home and barn, and both will look better and be worth more.

It doesn't pay to use poor paint. It won't last, and you will have to do it all over again in a short time.

We have just the paint you want—Certain-teed paint. It's the highest quality, but we can sell it at a reasonable price because the Certain-teed people do not put the same price on all colors. Each color sells for what it costs to make plus a fair profit.

Certain-teed paints are made from the very best materials, thoroughly ground, and mixed by machinery which makes no mistakes. You'll like the way Certain-teed paint spreads and covers the surface. It's the easiest paint to spread we ever saw—it takes quality to do that. We have the right Certain-teed Paint or Varnish for everything inside and outside your house and barns. Come and see us before you buy any paint.
