

Notes By The Way

REVENUE FROM AUTO LICENSES. It is publicly announced that the enormous sum of \$107,000,000 has been collected from automobile owners...

"PULQUE" IN MEXICO. It seems that the Mexicans will not and cannot give up their national drink. It is easily made, but of dead-end dynamic force.

THE BIBLE IN SCHOOLS. In five states, Massachusetts, New Jersey, New York, Tennessee and Pennsylvania, legal enactments have made Bible reading compulsory in the public schools.

THE STRIKE QUESTION. There are two sides: One side—Many of those out of employment will not work because the "union" demand more wages and they are bound to support the unions.

LONG DISTANCE PREACHING. Recently in Pittsburgh, Pa., it was learned that a church outside of the city was without a pastor. By means of an amplifier, the sermon was transmitted to a Pittsburgh church making it audible to the congregation without its own pastor.

WHERE IS THE MONEY? It is said that those who have made a study that there is nearly \$200,000,000 of the country's money not in circulation. It certainly is not in the pockets of the unemployed.

THE WORST IN 50 YEARS. Weather experts, who make it their business, and their living, by keeping the population posted in regard to what kind of weather may be expected claim that this year has been the most abnormal in weather conditions in 50 years.

\$10,000 A YEAR. Last week some of the daily papers had in bold headlines, "Could not live on \$10,000 a year." The article, sensational in character, gave a synopsis of the speech recently made of a professor of a prominent college, saying he could not exist on \$10,000 a year.

DEATHS IN 1920. According to Government statistics there are 1,143,578 deaths in the U. S. during the year 1920, an increase over the previous year. Suicides seem to be able to learn the number of births in the same space of time.

A TOMATO STORY. Many have learned that the tomato was once called "Love Apple," but some people do not know that many years ago, before tomatoes were known in the United States, a vagrant, coming from the Bermuda Islands, was arrested, and sentenced to jail for a season, while there he sowed some little seeds in the rich soil of the jail-yard, telling the keeper to let the plants grow until he would come again.

THE SHORT NUT CROP. From all directions of the compass comes the news that all the usual nut crops are "short," especially the favorite chestnut, caused by blight, which, it seems, the experts cannot overcome. Here again is a sample of the "good old times" passing away—times when we roasted chestnuts and saw them burst and fly from their places, perhaps into the face of an innocent one.

TEN COWS FOR A WIFE. In Mozambique, Africa, a young man cannot smile at a girl, and claim her for a wife. He must work until he has enough money to buy ten cows. Then he can claim her for a wife. In this way he may secure three

WHY DID HE DO IT? August Jaeddeke, the trusted president of the Kansas State Bank, absconded with thousands of dollars. He had been trusted and honored by all who knew him. He had been trusted and honored by all who knew him. He wrote a wild letter to his wife: I was too trustful, believing all those I trusted had the ability to successfully carry their plans to completion, but I was fooled. I held out as long as I could but the worst of all overcame all these losses in time. What will I do, I do not know. Where I am going I do not know. Some place I must locate, and some place I must stop.

BLACK SKINNED CHICKENS. There are all kinds of experiments with flowers, vegetables and even transforming the flesh of animals to man for divers experiments and purposes. The strangest, and seemingly, most useless experiment, has been tested as a success in the Carnegie Experimental Station. The skin of a chicken has been worked upon until, from the drumstick to the head, the skin is black. Perhaps the next move will be to grow chickens without feathers.

AN INDIAN SIGN. Every history student knows that an infallible sign to the Indian, who knew nothing of almanacs and calendars, of the approach of spring, when the oak leaves were as large as squirrels' ears, it was safe to plant garden truck. A lady living in Indiana, nearing her four-score and ten, writes, "People here think we will have a terrible cold winter, the shucks (husks) of the corn are thick—an old Indian sign."

THE SALVATION ARMY. Again we bring up the Salvation Army for the good work they are doing. In Chicago, jobless men are paid \$1.50 a day to search for work. Each man "hired" by the Army, is given a card listing several firms or factories in his line of work and instructed to apply to them for a position. Each evening he returns his work card and is paid \$1.50. This plan is a good one, not only helping the men temporarily, but instilling into them the courage to keep on trying.

UNDERTAKING A BIG JOB. Henry Ford has undertaken and carried through some enterprises that claimed the world's attention. He now has undertaken a new proposition—to save money for the nation and states. He believes in moneyless elections, and is starting a crusade to stop useless expenditure, not only at elections, but in matters of nation and state, which, no doubt, will be a greater undertaking than establishing prohibition. He is first trying out the crusade in his own state.

MONEY IN JUNK. Recently we had a talk with a junk dealer about his business. He had several car loads piled up at his home, but claimed there was no sale for it, yet quite frequently we read that junk-dealers die, leaving a fortune. Just recently a man in Chicago, dealer in junk, died, leaving an estate valued at \$37,825. He was 62, and 900 to charity. He started out in business 40 years ago with a pack on his back.

1900-1921. In 1900 the newspapers and general public of Carroll County were warmly discussing two important subjects, in which the majority were directly or indirectly interested. Clippings from papers show plainly that many became "hot under the collar." The subjects were, "Rural Free Delivery," and "Four Terms of School." The result, after so many years, is now seen.

WINE 1901-23 YEARS AGO. Last week a family from near New Oxford, Pa., on the Lincoln Highway, visited friends in town. They saw all is dry and brown, the gardens have nothing green, the pasture is dry. Cattle are fed at the barn, corn is suffering.

WAS THE DEBT PAID? When we say we are in debt we mean an obligation to another. Let us illustrate that money in itself is only a piece of metal or paper. A blacksmith, baker, butcher and merchant, all together on a street corner. The blacksmith got a \$5 bill out of his wallet, and, handing it to the baker, said, "I owe you \$5. The baker handed it to the butcher, saying, "That just pays my debt." The butcher handed the \$5 bill to the merchant, saying, "That settles my bill." The merchant to the blacksmith, said, "I owe you just \$5. Here it is." All were paid, and the blacksmith had his money again.

A CORRECTION. Mistakes will occur, and do not happen to be hay-stacks, or every one's cows and horses would have plenty of hay.

THE Y. M. C. A. October 1st marks the anniversary of the birth of George Williams, of England, founder of the Y. M. C. A. It was on June 6, 1884, that twelve young men met and formed an organization that has since grown until today it girdles the globe, has a membership of one and a half millions, and values its property at \$129,548,000.

THE DUCKING STOOL. One of the old-time punishments was a "Ducking Stool." It was a plank with a chair fastened on the end. The victim was tied to the chair, and the plank and its unhappy burden were pushed out a foot or two above the water then the end of the plank was dropped with the result that the chair and its burden were sunk beneath the surface once, twice, thrice, or as often as the authorities had deter-

mined should be done. There are records of this punishment having been administered to women who used their tongues too freely on their husbands.

AN UNUSUAL ACCIDENT. Not long ago at Chester, Pa., the cry arose that a child was drowning in the river. At once a crowd collected on a walk at the side of a bridge over the river. Under this walk which was hung from the side of the bridge, an iron gusset plate had rusted away. This so weakened the foot-path that it fell, and twenty-four persons were drowned.

WHERE THE MONEY GOES. 35,000 people spent an average of \$3.00 a week a day for 9 days to see a world series of baseball. A man paid \$750 as his membership fee to belong to a golf club. 20,000 people each paid \$1.00 to see an automobile race where two men were killed.

ANOTHER FOOLISH UNDERTAKING. Edward Naughtly with three expert pilots, expects to start from Washington and fly over the North Pole, November 14th, tour Europe, across the Atlantic Ocean, and return home, if their plans mature. They expect to travel in a specially constructed aeroplane, that can be readily converted to land plane, or sea plane, or for plane occasion demands. They expect to travel 12,000 miles before they reach home. Of what benefit will this trip be?

LARGEST OFFICE BUILDING IN THE WORLD. Recently one of the largest circulated magazines in the United States printed a picture of the Army and Navy Quartermaster Office, Washington, D. C., the largest office building in the world, occupying one million feet of floor space. In a part of this building will be held the World Conference on Limitation of Armaments. The following great nations will be represented: Great Britain, France, Japan and China, besides many smaller nations. The date set for this great event is November 13th, following Armistice Day. Alfreid Marshall Foch, the great French Commander, is at Washington.

BUILDING ROOM COMING. Plans are being made to put large numbers of unemployed men to work putting up new buildings, including some new factories. This seems to be a wise plan if the Profiteer manufacturer decides to keep his factory closed, as he is doing now because he is loath to part with some of the enormous profits he made during the war. President Harding is recalling the 15,000 U. S. men in Coblenz, Germany, which will mean so many more men who will need employment.

IS IT TRUE? We copy this poem from "The Gospel Herald," of Scotland, Pa.: "Some go to church just for a walk, Some go to church to laugh and talk; Some go there, their time to spend, Some go there to meet a friend. Some go there to learn the pastor's name, Some go there to wound his fame; Some go there for speculation, Some go there for observation; Some go there to doze and nod, But few go there to worship God."

GREEN MOUNTAIN POTATOES. A man in Wisconsin raised 1,700 bushels of Green Mountain potatoes on less than 5 acres of ground. Two acres averaged about 475 bushels. The man writes, "Some of the land was new ground, I have found that the success of a potato crop is in the carefulness of selecting the seed."

A QUEER MARKET PLACE. In Bible times, different nations would meet, without an interpreter, and such a babble of tongues was all confusion. Even now, we can find places and confused languages. There is an old French market in New Orleans, where we can find gaudy and Italian fruit vendors, Chinese and Hindu, French, Malay, Irish and English. It was built in 1812, and even on Sundays the market is open. All these people have a soul to save.

A PUMPKIN STORY. Over in New Jersey a farmer, with a liking for pumpkin pie, brought in a large yellow pumpkin and asked his wife to make some of the delicious pies she knew so well how to make. There happened to be a swarm of bees in that 60-pound pumpkin. Some of the bees stung the good wife, but she managed to make some delicious pies, using honey as sweetening and flavor.

COLD AND SPEED. A new speed record for flying machines was made lately when a seaplane flew from Philadelphia to New York in 32 minutes. The fast, express trains cover the distance in two hours. It is 88 miles in a straight line which means that the average speed of the seaplane was well over two miles a minute. There were three passengers besides the pilot. At a height of 10,000 feet, nearly two miles, the temperature was 28 degrees below zero. It was 75 degrees above zero at the earth. Of what benefit was this speed record?

THE WAY OF THE TRANSGRESSOR IS HARD. It will be remembered, that about a year ago, thousands of people either went to see Ponsi, at Lexington, Mass., to invest their savings at a promised 50 per cent interest, or sent their savings by registered mail. After he was arrested and sent to jail, it was thought that thousands of people would lose their all. Just recently a large crowd again congregated at Charleston to see about \$15,000 worth of Ponsi's carpets and other rich furnishings sold to the highest bidder.

DOCTORS BY AIRPLANE. In Australia, especially in remote places, doctors are called by telephone, and are able to respond quickly, in cases of emergency, using the "air route." Barring slight delays in starting the aeroplanes, at times, a doctor can cover much territory in a day, traveling at the rate of a mile a minute, or faster, when necessary. It will be only a matter of time when the same thing will be put into practice here in the U. S. A.

THE MONEY GOES. 35,000 people spent an average of \$3.00 a week a day for 9 days to see a world series of baseball. A man paid \$750 as his membership fee to belong to a golf club. 20,000 people each paid \$1.00 to see an automobile race where two men were killed.

Given under my hand this 31st day of October 1921. LEAH J. BENNETT, WILLIAM L. HAMMOND, Administrators.

EVER THINK OF DANGER OF LANTERNS AND GAS JETS IN BARN? ASK YOUR INSURANCE MAN, THEN ASK HIM ABOUT DELCO-LIGHT. KEEP YOUNG. People with bad backs and weak kidneys are apt to feel old at sixty. Your old folks say Doan's Kidney Pills help them keep young. Here's a Westminster case. Mrs. C. E. Hollenbaugh, 5 Pennsylvania Avenue, gave the following statement August 9, 1916: "I had a severe attack of kidney trouble and suffered untold agony. My back hurt so I couldn't lift anything. My kidneys acted too often. My eyes blurred so I couldn't do my work or read. The doctor didn't help in any way and I was very much disheartened. One day a member of my family noticed Doan's Kidney Pills advertised in the newspapers and I thought I would try them. After I used one box I got immediate relief. I used about four boxes in all and am now almost free from kidney trouble. I still use Doan's whenever I need them. There isn't a kidney remedy as good as Doan's Kidney Pills." On December 10, 1920, Mrs. Hollenbaugh said: "I have never had anything to help me like Doan's Kidney Pills. I never miss a chance to recommend them. Whenever I have any sign of my kidneys being out of order a short use of Doan's is sure to give me relief." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hollenbaugh had. POSTER-MILBURN CO., Mfrs., Buffalo, N. Y.

FOR SALE. Registered Duroc Pigs, will give papers. Apply to RAYMOND ROFFMAN, R. F. D. No. 5, Westminster, Md. nov 4-21
