WESTMINSTER, MD.

FRIDAY AFTERNOON, JAN. 6, 1922

CONGOLEUM TO OPEN ON FULL TIME

On February 1st the Congolemm Company at Ashestos will resume operation on full time with the usual number of employees. The men who were former employees of the company will be taken back, if they desire to come. This plant has been closed since November and no doubt, will be accepted as good news to our citizens when started again.

AN APPRECIATION

I wish to express my hearty appreciation of the splendid cooperation of the public in handling the Christmas mail. By our patrons using care in preparing their parcels and mailing them early the office was able to handle the largest Christmas business in its history without delay or confusion.

THOMAS J. COONAN,
Postmaster.

FARMER'S CALENDAR

January 10, 11 and 12. All Farmers to Baltimore. The Maryland Agricultural Society Complete Program in Maryland Farmer.

HAIGHT

Misses Elsie and Katharine Schaffer and Emma Hunter, of Westminster, were guests of Misses Katherine and Anna Phillips, and Mrs. Howard Parker, on Saturday and Sunday last.

The collection taken at the Christmas entertainments for the Russians at the churches here amounted to about \$45.

Arthur Hush is having a barn frame sawed out for B. F. Bennett, of Baltimore, who will build a much needed barn on the old homestead this spring. Albert Nichols, of Gamber, is doing the work.

Tyson Oursler, who was taken to a Baltimore Hospital last week, suffering from an attack of lock-jaw, is slowly improving. We hope he will soon be home again.

Ice formed here two or three inches on the streams. Another day or two cold weather would have made the ice thick enough to cut, but the weather has moderated and will have to await another freeze. Persons here are not as much concerned about the ice prospect since the Melville Company have installed an ice plant.

The name of the State road now completed will be known as Oakland avenue. If those persons who have diked this road a one man road, would visit Oakland Mills, would see a one man road for fair.

No wonder a hen gets discouraged. She can never find things where she lays them.—New York American.

January 1st, 1922.

Dissolution of Partnership

Notice to Creditors and The Public

THIS IS TO CERTIFY, that the partnership heretofore existing between Smith and Reifsnider at Westminster, Carroll County, Maryland, has been dissolved by mutual consent as of December 31st, 1921. Mr. John L. Reifsnider, Jr., has succeeded to and will continue the business and has taken over all the stock in trade and other property, and has succeeded to the good-will of the business, and has assumed the payment of all the debts, obligations and liabilities of the partnership and business as shown on the books of said firm at the close of business at midnight on December 31st, 1921. All debts due the said partnership shall be paid to Messrs. Joseph W. Smith and John L. Reifsnider, Jr., jointly, and all debts owed by the partnership, as shown on the books of said firm at the close of business at midnight on December 31st, 1921, shall be paid by Mr. John L. Reifsnider, Jr.

JOSEPH W. SMITH,
JOHN L. REIFSNIDER, JR.

WESTMINSTER MARYLAND

THE MAGIC BROODER.

The Wonder of Wonders

No person can ever realize the efficiency of this brooder until they try it. Many people think "a brooder is a brooder" and one should be as good as another. A brooder that will not hold the fire and maintain an even temperature will not do the work properly.

The Magic is built to do the work. It is equipped with both top and bottom draft regulation, also coal magazine and gas escape system. The ash pans are made of galvanized steel and will not rust out. The deflectors are lock seamed and riveted. In fact, everything about the Magic brooder is quality from start to finish. They need attention only twice a day and will brood chicks at a profit. Without a reliable brooder it is impossible to succeed. Money refunded after thirty days' trial, including freight if the Magic brooder does not do all I claim. Send for free catalog describing same, together with plans for colony and laying houses.

Buick

Freezing Weather Cannot Sto Buick Oil Circulation

(pumps in automobiles sometimes freeze up in every cold weather.)

buick oil pump is so designed that, should the pump gears be held immovable through freezing, the shaft revolves within the gear. The heat thus generated thaws out the frozen gears, restoring gear action and oil flow to normal.

Try on a Buick will you find this feature.

Stick Sizes	Price	Buick Four	Price

Great Moments in a Great Picture

The last day together

They sat at the table in the restaurant where they had danced together so often, and knew that this afternoon together was their last. There had been gossip—of the sort no woman can resist. Small wonder they were distraught. They would have been more so, could they have foreseen the end of the affair which is so prominent a part of
