

RACCOONS, OPOSSUMS AND FOXES ASKED TO BE PROTECTED IN BILLS INTRODUCED INTO LEGISLATURE.

The following bills are before the Legislature for passage for the protection of raccoons, opossums and foxes:

A Bill entitled, An Act to protect raccoons and opossums in Carroll County.

Section I. Be it enacted by the General Assembly of Maryland, That it shall be unlawful to catch, kill or have in possession except for propagation any raccoon or opossum between the first day of January and the first day of October, both days exclusive, nor when the ground is covered with a tracking snow, nor shall any person destroy any den or den tree of any such raccoon or opossum in said County.

Section II. And be it enacted that any person, who may be convicted before any Justice of the Peace of the violations of any of the provisions of this act, shall be fined not exceeding ten dollars, and in default of the payment of such fine and costs of suit shall be confined in the County Jail of Carroll County for a period not exceeding ten days.

Section III. And be it enacted that this act shall take effect from the first day of June, in the year nineteen hundred and twenty two.

A Bill entitled, An Act to make it unlawful for the owner or possessor of any dog, male or female, to run at large in Carroll County and destroy game birds and animals, as described in Section 29 of Chapter 570 of the Acts of the General Assembly of Maryland of 1920, or to destroy the eggs of such game birds between the first day of October and the first day of October.

Section I. Be it enacted by the General Assembly of Maryland that it shall be unlawful for the owner or possessor of any dog, male or female, to permit the same to run at large in Carroll County and destroy game birds or animals, as described in Section 29 of Chapter 570 of the Acts of the General Assembly of Maryland of 1920, or to destroy the eggs of such game birds between the first day of October and the first day of October.

Section II. And be it enacted that any person, who shall violate the provisions of this act and shall be convicted before a Justice of the Peace of said County shall be fined a sum not exceeding ten dollars, and in default of the payment of said fine and costs shall be sentenced to confinement in the Jail of said County for a period not exceeding ten days.

Section III. And be it enacted that this act shall take effect from the first day of June, in the year nineteen hundred and twenty two.

A Bill entitled, An Act to repeal Chapter 450 of the Acts of the General Assembly of Maryland of 1916, entitled, "An Act to prevent the killing of foxes, while being chased by hounds, followed by hunters, in Caroline and Carroll Counties, and to reenact the same with amendments."

Section I. Be it enacted by the General Assembly of Maryland, That the Act passed by the General Assembly of Maryland of 1916, Chapter 450, be and the same is hereby repealed.

Section II. And be it enacted, That this Act shall take effect from June 1st, 1922.

TELEPHONE COMPANY STOCK ON SALE

No community can prosper and grow without progressive telephone service. The Maryland public is largely a telephone using public. Telephone subscribers are interested in the service they receive. The greater their knowledge of telephone systems and service, the more effectively becomes their use of it. The telephone subscriber who buys A. T. & T. stock becomes a part owner in the telephone system which serves him. It thus increases his interest in the company and the service which the company provides, and promotes a more definite relationship. The company is anxious to serve the public to the fullest extent possible and believes that with a closer relationship existing to its patrons in the form of their part ownership in the system, a mutually satisfactory condition will be created. The public has then a very direct interest in the telephone system. Their interest will be fostered by a part ownership of that system, and the purchase of stock by subscribers will tend to insure the service and a fair return on the investment, making both permanent, and thereby work to better conditions from a civic standpoint. The company is, however, anxious to make friends and it believes that there is no better way to make friends than by giving good service and securing a wide distribution of the company's stock, in short, making the public, it serves, that is, the users of the telephones, owners of the system.

TRAIN IN ICE FOUR DAYS

Mackinaw City, Mich., Jan. 23.—The car ferry Chief Wawatam, which for four days has been endeavoring to bring a Duluth, South Shore & Atlantic passenger train across the straits from St. Ignace, through heavy ice packs, made port here today.

While many of the passengers walked across the mile of ice that withstood the efforts of the car ferry, 80 persons declined to walk and came in today with the ferry.

The Wawatam made her first attempt to break through Thursday evening, but after 16 hours gave up and returned to St. Ignace. With a fresh supply of provisions aboard another attempt was made Saturday but the vessel again lodged fast in the ice a mile from her docks here. A shift in the wind and continued hammering at the ice pack opened a lane today.

A Bible Question.

Recently in conversation with a Sunday School Superintendent, he asked this question, "What was the first sin committed after the flood?" which we pass on to our readers.

"DEATH LURKS IN CORN LIQUOR," SAYS "DRY" MAN

Louisville, Ky., Jan. 23.—"The face on the barroom floor should be these days," declares George H. Blincoe, Federal prohibition agent. "Death lurks in white corn liquor," he says. "It all contains fusel oil, one of the most deadly poisons. First-run moonshine is 'rank poison,' yet the moonshiner who makes the stuff 'first shot' it is called by the legitimate distiller—doesn't trouble himself to distill it again, but sells it as it is for drinking purposes.

Double distillation and aging in charred barrels for at least four years is necessary to remove the fusel oil, Mr. Blincoe says.

"No moonshine I have ever seen in my experience as a prohibition enforcement officer has been aged. The bootleggers' motto seems to be 'Full speed ahead' and never 'safety first.'"

PROF. ALBERT LEVITT DECLARES HE'S LUCKIEST MAN IN WORLD

Grand Forks, N. D., Jan. 23.—Prof. Albert Levitt, of the University of North Dakota, secretly married to Elsie Hill, Washington, self-styled "blazing feminist," militant suffragette and chairman of the National Woman's Party, who today declared he is the luckiest man in the world, is a native of Maryland, having been born at Woodbine. So far as known Woodbine, this county, is the only postoffice by that name in the State.

His luck, he added, was in the fact he had married a feminist, one who would not allow the husband to be a czar.

Professor Levitt met Miss Hill while he was an assistant professor of law in George Washington University, Washington. Miss Hill formerly was a teacher of French in the Washington Central High School. He became professor of law at the University of North Dakota last year. He also has taught at Colgate and Columbia.

Mrs. Hill says she will not change her name, as there is no law to insist on it, and it is only a custom.

MACKALL PLANS FIGHT ON SIGNS ALONG STATE ROADS.

Having settled his controversy with State Forester Besley by an agreement under which the State Roads Commission is to have jurisdiction over all signs along the right of way of the State roads, Roads Chairman Mackall is preparing to "buck" the Standard Oil and other concerns, including tire companies, supply houses and general mercantile concerns which have signs along the public highways, even if they are on private property.

GO TO THE RESCUE

Rescue the aching back. If it keeps on aching, trouble may come. Often it indicates kidney weakness. If you neglect the kidneys' warning. Look out for urinary disorders. This Westminster citizen will show you how to go to the rescue.

Mrs. J. J. Hesson, 54 Pennsylvania Avenue, says: "I suffered with a severe attack of kidney trouble and had severe pains across my back. The pains were so great I couldn't take a deep breath or do anything. My head would ache too. Relatives told me of Doan's Kidney Pills and I procured a box at the Shaw Drug Co. I found immediate relief. I can recommend Doan's very highly and owe them a great deal. A kidney sufferer should use Doan's."

The above statement was given August 9, 1916 and on December 11, 1920, Mrs. Hesson added "The cure Doan's Kidney Pills made for me has been a lasting one. I am always glad to recommend them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hesson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

BLUE MONDAY COMES ONCE A WEEK UNLESS IT IS IN A DELCO-LIGHT HOME.

Most of these signs, to attract attention, profess to give some information about the roads or the distance from one point to another. Much of this information is misleading. For instance, at one point on the Annapolis Boulevard are two advertising signs within 15 feet of each other. One states that the distance to Baltimore is 16 miles and another 15 miles. Neither is right. Mr. Mackall says at other places the same condition exists.

Some days ago he took up the matter with Attorney-General Armstrong and asked if there was some way the Roads Commission could control highway signs, even if they were on private property, especially those signs which professed to give information concerning the State roads. As a result Mr. Armstrong is preparing a bill to be sent to the General Assembly by Mr. Mackall.

Those who have put up these signs ordinarily pay the land owner a small sum for the privilege, and also for maintenance. Mr. Mackall wants them to come down, especially those which contain facts, or alleged facts, as to distances or the roads. He states that the Roads Commission itself will give all the signboard information necessary.

Making Sales By Telephone

SOME months ago the manager of a South Bend corporation which handles Goodrich tires decided to try the telephone as an out-of-town salesman. The results were a revelation.

He talked personally to twenty-nine car owners; to eight of them he sold tires, and others promised to call at his place of business.

More than twenty-five per cent. of the prospects called were actually sold. A sales letter which would produce such results would be considered a miracle.

Why not make your telephone a productive salesman? It pays. It doesn't cost much to telephone out-of-town and there are special reduced rates on Station-to-Station calls after 8.30 P. M.

Consult your directory or ask the operator for rates to the different points.

THE MAGIC BROODER.

The Wonder of Wonders

No person can ever realize the efficiency of this brooder until they try it. Many people think "a brooder is a brooder" and one should be as good as another. A brooder that will not hold the fire and maintain an even temperature will not do the work properly.

The Magic is built to do the work. It is equipped with top and bottom draft regulation, also coal magazine and gas escape system. The ash pans are made of galvanized steel and will not rust out. The deflectors are lock seamed and riveted. In fact, everything about the Magic brooder is quality from start to finish. They need attention only twice a day and will brood chicks at a profit. Without a reliable brooder it is impossible to succeed. Money refunded after thirty days' trial, including freight if the Magic brooder does not do all I claim. Send for free catalog describing same, together with plans for colony and laying houses.
