**The Holy Spirit.**

On Sunday morning, we were privileged to hear a good sermon on the above important subject. The expounder of the Gospel made it plain to his hearers that we must not only have some of the "Holy Spirit," but must be full of it as in the days of Pentecost. To which we would add, "And we have too much of that careless and selfish spirit in us to accomplish the amount of service to our All-wise Father who bestows so many blessings - on us everyday, than we should."

**FORDSON TRACTOR SALES INCREASE.**

Although the Ford Motor Company, Detroit, has been increasing the output of Fordsons daily since the first of the year, retail sales have been maintained even a greater advance. April requirements necessitates the building of four hundred Fordsons a day, and production is being further increased as rapidly as possible. This is the Ford Company's largest output since 1919, and it is expected that production will have broken all previous records before the end of the month. The increased buying of Fordsons indicates that the farmer's position is

better and also is the farmer's endorsement of the Fordson price-which created considerable comment throughout the country. Besides the Fordsons being sold for farm use, many are being sold in the cities as power units for hauling, excavating, grading and other kinds of industrial work. **IMMANUEL LUTHERAN CHURCH.** Rev.
