"JEHOVAH DID IT"

Recently we were privileged to hear a cultured lady speak to a Sunday school on the Sunday school lesson about Asa, who had wicked ancestors on both sides, even dating back to his great grandfather, Solomon. In winning victories against wicked enemies, Asa didn't do it but Jehovah did it through Asa's prayers and armies. We cannot fight the enemies who would destroy all that is pure, just and good, for John 15:5 tells us of ourselves, we can do nothing, but we can do as Asa did, "Let Jehovah do it."

REVOLT ON FRANCE STARTED IN G. O. P.

LETTERS TO JACKSON, TAIT AND COUNTY CHAIRMEN INITIATE REBELLION.

The first steps in an organized revolt of leading Republicans against the renomination of Senator Joseph Irwin France are under way.

The moves come directly from Henry F. Baker, chairman of the State Central Committee in Baltimore county, but it is known that a number of influential party leaders are associated with him and that they are acting in deadly earnest.

Mr. Baker has written identical letters to William P. Jackson, member of the Republican National Committee from Maryland, and to Galen L. Tait, chairman of the Republican State Central Committee, in which he says that he has made an investigation of party conditions in Baltimore county and finds that renomination of Senator France will disrupt the party and lead many Republicans into the Democratic camp. Mr. Baker also has written to the Republican committee chairmen in each county along the same lines.

"Many leading Republicans of Carroll county do not hesitate to say that they are opposed to Senator France."

ANOTHER CUT FOR RAILROAD EMPLOYEES.

Readjustment of the wages of approximately 400,000 maintenance of way employees of the railways of the country effective July 1, in accordance with the decrease in the cost of living and wages in similar outside employment since the decision of the board last July, was provided for in a decision by the United States Railroad Labor Board. The decision is expected to reduce present pay rolls of the railroads about \$48,000,000 a year and to reduce the pay of the majority of the maintenance of way men five cents an hour, but important classes of the employees were given a smaller cut. Under the majority head were included track laborers and other classes usually designated as "common laborers."

Church as a minister, weighing 88 pounds. He drew large crowds in Oregon and Washington state. When he was 19, he had a regular circuit charge with a salary of \$16.00 per month. He preached against liquor, was shot at, his house broken into, the furniture demolished, yet he kept on being guarded during church services by 25 men armed with rifles and revolvers. He wrote 66 books and is yet as active as ever.

PENSIONS IN UNITED STATES WARS.

Summing up the totals, we fear the United States, often called the "Peaceful Country," and the "Peacemaker," has had more pensioners to pay than any other country in existence. The "Big" wars since 1775, were, namely, The Revolutionary War, War of 1812, Indian Wars, Mexican War, Civil War, War with Spain and the Philippines, and World War. The largest number of pensioners was from the Civil War, costing, up to date, the enormous sum of \$3,439,000,456. While the remainder of the wars required of the government, for pension, the sums from \$20,000,000 to \$70,000,000.
