Cecil County Livestock Win in England

College Park, July 7.—The American livestock judging team, composed of three boys from Cecil County, Maryland, who won the trip to the English Royal Stock Show at Cambridge, England, by defeating thirteen other State teams in a contest at the Southeastern Fair at Atlanta, Georgia, were victors in a similar contest July 5 against English boys, according to a cablegram received here today by Dr. Thomas B. Symons, Director of the University of Maryland Extension Service.

The livestock judging contest between the American and English teams was arranged as a feature of the English Royal Stock Show and the English boys who competed were selected from an organization similar to the agricultural boys' clubs which are conducted in this country by the United States Department of Agriculture and the State agricultural colleges.

F. E. Bussey, of the London Daily Mail, is particularly active in promoting the club work in England and offered the gold cup for which the English and American teams competed and which the Maryland boys won.

The American team was composed of George Worrlow, sixteen, Warren Rice, seventeen, and Joseph Glackin, fifteen. Worrlow made the highest score in the contest, according to the

telegram. All three of the boys are full credit, they have completed an impressive string of victories starting with their triumph over other countrying contest at the Timonium Fair last year.

the rewards for their victory they were sent to the National Dairy Show at St. Paul, Minn., and from St. Paul to Atlanta, Ga., where they won first place and the trip to Europe.

The boys are accompanied on their trip by E. G. Jenkins, State boys' club agent for Maryland, W. C. Sharr, County Agent in Montgomery County, who trained the team, and C. L. Chambers, of the United States Department of Agriculture.

Commenting on the victory of the Maryland boys, Dr. Thomas B. Symons, Director of the University of Maryland Extension Service, said that the news was not only gratifying but pointed to the opportunities open to rural boys and girls through club work to learn the things that make real agricultural achievements possible.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui... that I was improving. The result was surprising. I felt like a different person."

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me... My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it." Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui.
