A Westminster Inquiry

Answered By the Statement Of a Westminster Resident.

When first the long series of reports of Westminster people who have been relieved by Doan's Kidney Pills were published in the local press, great enthusiasm and interest were aroused. But Westminster is now inquiring "How are these people keeping today? How has the benefit they received withstood the test of time? For that, after all, is the essential test of a cure. On this point doubt can no longer exist, for after many years those who have been cured, emphatically declare their cures to be lasting.
Mrs. J. J. Hesson, 64 Penna. Ave., Westminster, says: "I suffered with a severe attack of kidney trouble and had severe pains across my back. The pains were so great I couldn't take a deep breath. My head also ached. Relatives told me of Doan's Kidney Pills and I procured a box at the Shaw Drug Store. I found immediate relief and recommend Doan's Kidney Pills to all who are afflicted with kidney trouble."
The above statement was given August 9, 1916 and on December 11, 1920, Mrs. Hesson added: "The cure Doan's Kidney Pills made for me has been a lasting one. I am always glad to recommend them to others."
Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hesson had. Foster-Milburn Co., Buffalo, N. Y.

sang. Also some special music. They carried along some sweets for the inmates.

NOTICE

Before contracting for your Electric Wiring and Fixtures consult with us first. ESTABLISHED IN 1910.

My reputation is not for shoddy work. All my work is approved by the Fire Underwriters. Here are a few facts worth remembering on first class and cheap work. We need no INTRODUCTION.

The difference between a cheap job and a first-class job is this: The cheap contractor furnishes the cheapest material and labor that money can buy, while the high-price contractor uses only first-class material and labor.

The material that the cheap contractor uses is always short-lived and not guaranteed, while the reputable contractor's material and work is long-lived and fully guaranteed.

The cheap contractor will make any kind of a promise to you in order to get your work, then afterwards use excuses and technicalities to creep away from his promises, while the reputable contractor will gladly show you his grade of material by the trademark of quality.

Not only this, the reputable contractor will gladly counsel you on the most practical way consistent with quality to install your work; the cheap contractor will not; he is always ready to mislead you.

The cheap and irresponsible contractor always figures on extras, while the reputable contractor does not; that is why his bid is higher than the cheap contractor.

Our material is the best that money can buy. Fully guaranteed. We employ first-class mechanics, men that are honest and take pride in their work.

WE CAN PROVE THE ABOVE.

Let us estimate on your work.
