CASE, Agent and Clerk. Lavinia L. Sherfy, Owner. John H. Brown, Auctioneer.

KILLED THREE MINUTES PRIOR QUITTING WORK

Charles Colliflower, aged about 50 years, who resides between Graceham and Thurmont, was instantly killed Tuesday at the quarries of the Tidewater Portland Cement Company at Union Bridge. Colliflower, it is understood, was engaged in digging an excavation for an addition. About three minutes of 12 o'clock, the time for lunch hour, the ground where he was working caved in. Colliflower was caught by the earth and hurled under, between three and four feet of dirt. It is said the unfortunate man was hurled against the rocks and badly mangled. Surviving him are his widow and six children. Funeral took place on Friday with services at the Reformed church.

The Peace Conference.

After the Peace Conference in which all the world was interested, hoping for the "Peace that passeth all understanding," one magazine has this to say in regard to the peace and prosperity for which we are longing and praying for: "There is civil war in China." "Japan is fighting Bolsheviks in Siberia." "Greeks are fighting Turks in Asia." "Spain is fighting Moors in the Rif district of Morocco." "Irish fight Irish on the island which a poet has called 'a little bit of heaven.'" "Hindus and Moslems riot in India." The present state of the world is only peaceful by comparison. The heaven that was to have been produced by the League of Nations is several laps in the rear. Anyone of the conflicts now being carried on is likely to spread. Thus it has been in the past. Those exponents of the "World-is-getting-better" doctrine should find food for serious thought in the fact that life is more insecure today than before the world conflict.

BRUCE CAMPAIGN HAS STRONG START

Candidate For United States Senate Given Enthusiastic Reception In Initial Speeches.

The campaign of William Cabell Bruce, nominee of the Democratic party for United States Senator, has had a most auspicious start. In his initial addresses at Leonardtown, Prince Frederick, Upper Marlboro and other points in the counties, as well as in Baltimore city, he was received with an enthusiasm which makes his supporters sure that he will be elected in November by an overwhelming majority. The outstanding feature of all these meetings was not only the developed fact that Mr. Bruce would receive cordial support from thinking voters who have made up their minds to elect a representative to the Senate from Maryland whose personal integrity and ability assure for the Commonwealth a forceful and proper representation and who can take his place beside the leaders of that body, but that he will be backed by all voters who are determined that Maryland shall no longer be misrepresented in the highest legislative body of the nation by a man who they class as a blatant demagogue.

From every quarter of the State the Bruce campaign headquarters is receiving assurances of support. It is particularly pleasing, say the Bruce workers, that every class in the State is included, and that the pledges of active work for Mr. Bruce are coming from representative groups of working men, from men in professional circles and from the best thought in the business development of Maryland. The quick popular response to the first active campaigning by Mr. Bruce is making his workers say that the question is already one only of majority, but they are determined to have no letup in their drive until after election day, as they feel that Senator France must be smothered by such a majority as to discourage for all time such illogical radicalism as he has openly fostered and proclaimed both on and off the floor of the United States Senate.

An energetic campaign for Mr. Bruce is assured in the appointment of his executive staff. The selection of Carville D. Benson, former congressman, as chairman of the Democratic Campaign Committee, and of Clarence K. Bowie, as treasurer, at once gave confidence to the workers, and this was added to in the subsequent announcement that Phillip B. Perlman, Secretary of State, and for a number of years an active newspaper worker, would have charge of publicity and advertising.

The following have been selected as members of the executive committee: Governor Ritchie, John R. Bland, Frank A. Furst, John Walter Smith, John M. Dennis, William I. Norris, E. Brooke Lee, Van Lear Black, Howard Bruce, Phillip B. Perlman, Hugh A. McMullen, Clarence K. Bowie, Rober B. Ennis, Michael Polencki and Dr. George Heller, of Baltimore; M. H. Magruder, Upper Marlboro; S. Sco: Beck, Charles L. Dodd and Harrison W. Vickers, of Chestertown; J. F. Strange, Annapolis; Malcolm Gra hame, D. Russell Talbott and Samue Owings, of St. Mary's county; Mrs. S. Johnson Poe, Mrs. Andrew Annan, Mrs. A. C. Butler, Miss Mary E. W. Ristean, Mrs. R. Green, Mrs. Douglas Thomas, Mrs. E. C. Harrington, Mr. Mortimer West, Mrs. Frank Z. Miller, Mrs. J. Gustavus Whiteley, Miss Kat M. McLane, Mrs. Herbert Oliver, Mrs. Anna Boyd, Mrs. Howard Bryant, Mrs. Arthur D. Foster and Mrs. Agnes C. Butler.

A Necessity which has Decreased in Price.

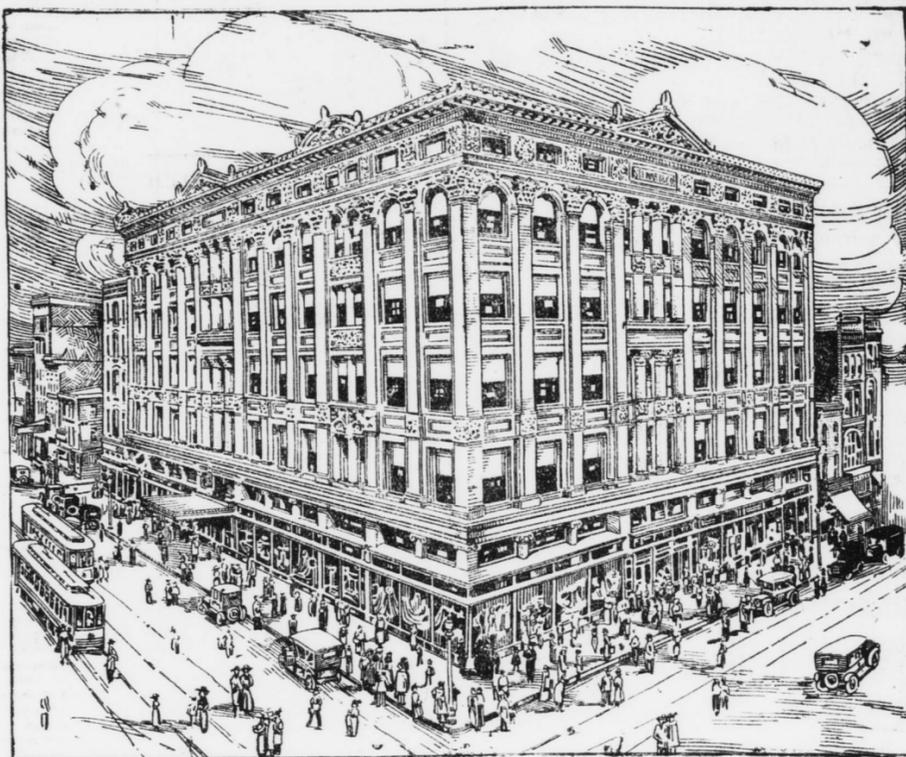

Electricity is the only commodity which during the last twenty-five years has steadily decreased in price, due to the rapid advance of electrical engineering, and even in the last few years, when all other commodities doubled and tripled in cost, the price of electricity has hardly increased at all, so that the domestic uses of electricity, now have become more economical than the old ways, besides being far more convenient, cleanly, and sanitary.

A Letter from Texas.

In a letter from a Texas Volunteer, we copy the following: "Knox and I went to Perry's Roof Garden last night, that is the swellest place to dance in San Antonio. It is on top of a twelve story building and it is nice and cool. They certainly have wonderful music. There are five negro musicians who call themselves the 'The Dixie Five Orchestra' and they sure can make some swell music. There are some awfully nice people go there and they don't allow any Mexicans in the place.

"I certainly hate to go out to the Rifle Range as that is sure some work and it tires you out for about a week, but I might as well not worry about it as that will not help me any. I guess I will get a chance to shoot for record this time. At least I hope so, as I want to see what kind of a marksman I am. If I can make Sharpshooter, I will get \$3.00 a month more salary and that would mean a great deal to me. If I can't make Sharpshooter, may be able to be a Marksman, which will pay me \$2.00 per month extra.

On the other hand, if it is going to be impossible to get coal there is still a lot of discarded political timber available.—Detroit News.

It Begins on Monday, October 16th

Stewart & Co. 21st Anniversary Sale

THIS Anniversary Announcement marks the culmination of months of planning and preparation by the entire Buying Organization of the more than three-score merchandise sections of Baltimore's Largest and Finest Store.

Mrs. Sue Algire, of Hampstead, has returned after spending 10 days with Mrs. Emma Bond.

The rain this week came as a great surprise, but was greatly appreciated by all. SAYS "LIONS" ARE WOLVES Mount Victory, O., Oct. 7.—The "lions" which were claimed by Mount Victory persons to be roving over this vicinity for the past fortnight have been identified as wild wolves, according to Michael Phelps, Hardin county farmer, who says he caught them in his pig pen last night stealing a pig. Phelps' report was confirmed today by half a dozen other farm-

ers whose pig pens had been visited by the animals during the night. Phelps declares he was within five feet of the animals when they fed. Phelps says he met the wolves when he went out to feed his swine. As he opened the gate the two animals rushed out, one holding a squealing pig in its mouth. When the animals saw Phelps they dropped the pig and escaped. Among those who saw the wolves on their pig pen last night were Mrs. Phelps, Mrs. A. L. William, Frank Gebert, Riley Copeland and Tom Longberry.
