

ALL PLANS MUST BE APPROVED BY BODY ON CITY PLANNING

Under Section of Recent Act, New Commission Must Endorse Proposed Work

Section 5. All plans or reports of lands laid out in building lots, and the streets, alleys or other portions of the same intended to be dedicated to public use, or for the use of purchasers or owners fronting thereon or adjacent thereto and located within the city limits, for a distance of three miles outside thereof, shall be submitted to the City Planning Commission and approved by it before it shall be recorded.

That section of the act of July 16, 1913, which provides for the appointment of a City Planning Commission by Harrisburg and other third class cities of Pennsylvania will be looked into carefully by County Recorder O. G. Wickesham with a view to determining just what effect this will have on the future filing of new development and improvement plans.

The application of the city planning act and Section 5 in particular to Harrisburg is being watched with peculiar interest here in view of the fact that many of the other third class cities have appointed their commissions, Harrisburg's commissioners have not, or at least say they haven't, considered the matter as yet.

Will Likely Name Park Board. The Park Commission, it is generally expected, will be named as the first City Planning Commission unless Commissioner of Parks and Public Property M. Harvey Taylor decides to follow the action of Commissioners Bowman and Lentz in recommending a Park Board in an advisory capacity.
