BURGESS SAYS COPS MUST GET ON JOB

Wigfield Tips Longaker Off That He Had Better Do Some Work

In an interview this morning Fred Wigfield, Steelton's new burgess, outlined the plans for his administration. Chief among the things that he will endeavor to secure for the taxpayers is an efficient police department.

Wigfield took official charge of the police department last evening. In a short talk with Chief Longaker and the burgess, the burgess said that he would make every effort to help the police secure efficiency in the police department and would stand by the department as long as they were efficient. He hinted, though, that if there was no improvement in the efficiency of the department there would be some dismissals.

"You must get on the job," he told Chief Longaker and the men. "Nu- merous complaints concerning your department have reached my ears. Why, one man who lives in Lincoln street tells me that he hasn't seen an officer in his locality for two months. Now just so long as you men are on the job I'll back you and help you, but if anyone comes to me with charges and has the goods on you, you will get out."

Favors Light System

Burgess Wigfield this morning de- clared himself in favor of the sugges- tion of Councilman Nelly that a sys- tem of lights and telephones be in- stalled and a desk officer hired so that the police will be in touch with each other. "It's a mighty good plan and I'm going to work for it," he declared.

Speaking further of his plans, the new burgess promised the town the best administration that he could give. He plans to at all times keep in touch with the citizens and for that purpose has set a time that he will be in his office beneath the council cham- ber to hear any recommendations, suggestions or complaints from the citizens. He will be in his office Mon- day, Wednesday and Friday evenings from 6.30 to 7.30 o'clock.

Good played right halfback for the High School football team last season until put out of the game with a fractured arm. His arm is now broken at the same place as be- fore.

CHURCHES HOLDING REVIVAL SERVICES

Evangelical Meetings Being Con- ducted by Many of the Lead- ing Congregations

Evangelical ser- vices are already be- ing held in half a dozen churches of the city and plans are being made in at least a score more to start services within a week. More inter- est seems to be taken in services of this kind than in many previous years, and entire congregations are actively enrolling for the campaign.

Although many de- nominations do not hold evangelistic services of the kind common among Methodists, United Brethren and Evangelical churches, yet these de- nominations that do hold such ser- vices are well represented in the city.

The Churches of God have been holding services since Sunday. At the Fourth Street Church of God there have been four conversions already. The other churches at Barclay street, Green street and Pleasant view start services on Sunday. In all these churches services will last for three weeks.

With the opening of prayer meet- ings in half a dozen homes of mem- bers of the Derry Street United Brethren church, the preparatory ser- vices of the evangelistic campaign at that church begin to-night. On Sunday the evangelistic services begin. In the other United Brethren churches of the city services are already or soon will be in progress. At Sixth street church services will last two weeks longer.

In the Methodist Episcopal churches vigorous campaigns are planned. The members of Stevens Memorial Church are now canvassing the city within a dozen squares of the church learning the names of non-church-goers. To these a special invitation will be sent to attend the evangelistic services which start on January 18.

By the adoption of the constitution of the Civic Council at the first regu- lar meeting last night, the organization of the new interchurch body was made more complete. The appointment of a number of committees to take charge of various phases of the work was authorized, and the executive committee will make the appointments in a day or two. The next regular meeting on the first Tuesday in Feb- ruary, it is said that several new things will be taken up.

The Rev. Edwin L. Curtis, pastor of Westminster Presbyterian Church, will address the men's gospel meeting to-

THE LIVE STORE'S JANUARY REDUCTIONS

A REAL TRIUMPH

Of course, we expected the announcement of our January reduction to bring business but scarcely the great volume of the past week. Perhaps it can be accounted for by the fact that more men than usual have postponed buying this year until now. Whatever the reason, we're glad to record our appreciation and to renew our contention that this is beyond question the biggest value-giving event in town.

Kuppenheimer Clothes

We need not elaborate on the fact; you know these clothes just about as well as we do—and they're the best clothing you can buy in Harrisburg; at these mark-down prices you won't find their equal.
