"Billy" Sunday Glad For Wheeling's Gains

Wheeling, W. Va., Jan. 9.—Evangelist Sunday in Pittsburgh, finds time to observe what is going on in other cities. Police Chief Thomas Layland, who closed the segregated district here January 1, received the following from the evangelist:

"I have been keeping in touch with affairs in Wheeling from time to time through the daily press and through friends, but nothing has given me more joy than to note your recent action in cleaning up things over there. It takes backbone to go after such evils, but I know you've got the right kind of stuff in you to do things, and when once such a campaign is started, it is up to the decent people to a city to get back of a man and stand by him.

"Remember you, well, as you stood at the door near Fred's room. Be sure and come around where I can have a handshake and express in person my appreciation of what you are doing.

"With kind regards to all the crowd. Cordially yours, "WILLIAM A. SUNDAY."

Discovery of the desecration was made early in the week, but news of it was withheld by the church authorities and police.

The relic regarded as a rare treasure, had been in the church for thirteen years, and was believed to have specific powers of healing. It was secured in Rome by a former pastor of the church. The casket was sealed by Pope Leo XIII.

REDUCTION OF CITY TAX RATE IS LIKELY IN 1915--BOWMAN

City in End Will Gain Largely Through Extension of Capitol Park

City Commissioner Bowman holds out the pleasing prospect of the reduction of the city tax rate next year. Incidentally, it is stated that valuations of city property will be reduced to the extent of nearly \$200,000 by the elimination of property in the Capitol Park extension district.

There is some difference of opinion on this point among those who have observed the course of events since the movement of enlarging the State park was started about two years ago.

It is contended that already one-half million dollars has been paid out by the Commonwealth for the various properties that have been acquired and that most of this money has been reinvested in new plants, improved factory buildings and dwellings. It is also pointed out that under the policy of the Capitol Park Extension Commission many persons have been permitted to occupy their premises after the State had paid for the same, with the understanding that all the city, county and school taxes should be paid as before, pending the actual removal of the buildings.

Among some who were discussing the question to-day, it was contended that in the end there will be a substantial gain in the valuations through a better class of business and residential properties; that while the city seems to have lost in revenue for a time, it will in the end have gained not only in the improvement of the city itself, but in the actual returns from increased valuations.

There has been general commendation of the commission for its fair treatment of property owners in allowing them to retain possession of the buildings for a year or two while they were relocating their business places and homes. It is also stated that the city has been protected in the taxes under this arrangement, inasmuch as the property owners paid the city, school and county taxes for a year or two after the properties had actually been conveyed to the State.

As an illustration of the increase in values, property interests formerly located in the Capitol Park extension zone are the six-story elevator and warehouse of the Brandt Flour and Feed Company in South Harrisburg, the fine concrete and steel factory building of the Moorehead Knitting Company, in Cameron street, the Harrisburg Light and Power Company's handsome new plant in Ninth street, and other important structures that have been moved out of the park district and have added greatly to the realty valuations.

Moyer May Direct Strike of State's Copper Miners

Houghton, Mich., Jan. 9.—Governor Ferris wound up his personal work in the copper strike district to-day and left for his home.

"I got what I came for," he said. "This strike cannot be settled in a week or a fortnight. I think that if we were left to the miners and employes themselves that it would be settled very quickly."

Charles H. Moyer, president of the Western Federation of Miners, probably will decide today whether he will remain here to direct the strike in the copper country or go to Washington to petition the executive committee of the American Federation of Labor to call a general strike of miners in Michigan.

President of Road Has Narrow Escape in Wreck

Eleven Deaths Involved in Crimes in Germany

Berlin, Jan. 9.—Two crimes of violence involving the death of eleven people were committed to-day in Soldau, Province of East Prussia and Hamburg.

At Soldau an entire family consisting of a man and his wife with their five children, were found in their house this morning with their throats cut and the gas turned on. Give Your Blood A GOOD Searching Bath

An astonishing record of serious blood poisoning is daily brought to our attention. And most if not all these conditions could be averted were the blood primed, toned and purified in advance by that wonderful remedy known everywhere as S. S. S. Few people realize how quickly the system becomes infected with the acids and ferments from undigested food, constipation and inactive kidneys.

The symptoms of fever, thirst, excitability, dry skin followed by rash, and many indications are often wrongly diagnosed as Ptomains poisoning. Many people who act hastily from violent temper are simply suffering from the effects of poisoned blood, produced by faulty elimination. But by far the greatest peril is the daily danger from bruises, contusions, the scratch of a rusty nail, and vocational poisoning.

The medicinal properties of S. S. S. are relatively just as essential to well balanced health as are the nutritive properties of the meats, grains, fats and sugars of our daily food. And if you will bear this fact in mind and get your blood under the dominating influence of S. S. S. you will not only drive out those impurities that cause Rheumatism, Catarrh, Eczema, Pimples, Boils and this aemic blood, but you will feel anew the thrill of health that can come only from a purified blood stream.

Do not accept anything else in place of S. S. S.; pay no attention to the "Just as Good" claims of those who would sacrifice your health to make an extra profit. S. S. S. contains no minerals, no crude drugs, nothing but the most beneficial materials. So be sure and get S. S. S. and avoid disappointment. Get a bottle to-day and write for free advice to The Swift Specific Co., 802 Swift Bldg., Atlanta, Ga.

TO RELIEVE RHEUMATISM the body-waste producing uric acid must be gradually arrested and the blood purified. Correct diet is essential. Abstain from tea and anything containing alcohol; eat meat only once a day and take SCOTT'S EMULSION after every meal. SCOTT'S EMULSION makes new blood free from the poisonous products which irritate the joints and muscles; its medicinal force relieves the enlarged, stiffened joints; and more, SCOTT'S EMULSION stimulates the forces to expel the poisonous acids by its concentrated nourishing properties. Physicians everywhere prescribe Scott's Emulsion for rheumatism. EVERY DRUGGIST HAS IT.
