Special to The Telegraph
Columbia, Pa., Jan. 23.—Chief Burgess Ralph P. Wilton presided at a mass meeting in Wrightsville last night, at which the citizens protested against the discontinuance of free mail delivery in the borough, which was obtained for them through the efforts of ex-Congressman D. The citizens also decided to ask Senator Penrose, Congressman Brodbeck and others to intercede for the continuance of the service.

You can be happy-footed just like me. Use "TIZ" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "TIZ" and only "TIZ" takes the pain and soreness out of corns, callouses and bunions. As soon as you put your feet in a "TIZ" bath, you just feel the happy, ness soaking in. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.—Advertisement.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring back color, gloss and thickness with Grandma's recipe of Sage and Sulphur
Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Weyth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Weyth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. Just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.—Advertisement.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE
"Indigestion and practically all forms of stomach trouble are nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is rich in starch, or which exerts a stimulant action in the stomach develop acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in the vital energy which can only come from a well bodied body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should eat a small amount of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than possibly be done by any drug or medicine. As a physician, I believe in the use of medicine when necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all its trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal, take a small amount of magnesia as directed above, and see if I'm not right."—Advertisement.
