Public Service Board Takes Questions Home

Public Service Commissioners adjourned late yesterday and took the board question home with them. The board action regarding tree passes and reduced fares until after the briefs, now being prepared by some of the petitioners for these concessions, shall have been filed. At the hearing in the matter statements were made that additional facts would be furnished the commission in support of the proposition to restore the pass arrangement, and it seems to be the opinion of the commission to obtain all the information possible before indicating its view on the question.

In reply to numerous queries as to the method which shall be observed by steam railroad companies in supplying sanitary cups for drinking purposes on the trains and in the stations, the commission has decided for the present to leave that to the carriers, without any designation as to the manner in which the public is to be served in this regard.
