Why Doctors No Longer Claim to "Cure" People

A few years ago it was a common thing for the family doctor to say, "I will cure you in a few days." This cheerful prophecy often gave the patient new hope and courage, but it is no longer good form. Doctors still "cure" malaria and a few other troubles in which their medicines have a direct or "specific" effect on the virus of the disease. In other cases they simply give supporting medicine and keep up the strength of the patient until nature effects a cure.

Dr. Williams' Pink Pills cure chlorosis and other trouble due to thin blood because the have a specific action on the blood, building it up, purifying and enriching it. This direct act on the blood also makes them the best supporting and strengthening medicine. If you are thin and weak, breathless after slight exertion, if you have palpitation of the heart, gas on the stomach, cold hands and feet, if you are nervous and easily irritated, and show other signs of weakened vitality, try these strengthening pills at once and let the rich, red blood cure you. Get a box to-day at the nearest drug store and begin at once to build up your health. Write now to the Dr. Williams Medicine Co., Schenectady, N. Y., for the free booklet, "Building Up the Blood."—Advertisement.

There's a Reason For Aches and Pains

Often some unsuspected habit, such as coffee drinking, is the root of the trouble.

The average coffee drinker who suffers from sleeplessness, headache, indigestion, nervousness or heart trouble usually says, "Coffee doesn't hurt me," until some day Nature hauls him up with a jerk.

It's poor business to trade health and a clear brain for a few cups of coffee.

POSTUM

in place of coffee, has put many a man and woman on the Road to Wellville.

Postum is made of prime wheat and a small portion of molasses. It has a delicious Java-like flavor, but none of the drugs, "caff-ine" and "tannin" which make coffee a health destroyer.

If your own judgment leads to a trial of Postum, for, say 10 days, and you begin to sleep soundly, digest food better, and your nerves get steady, these signs of returning health will show

"There's a Reason" For POSTUM

Postum now comes in two forms.
Regular Postum—must be well boiled. 15c and 25c packages.
Instant Postum—a soluble powder. A teaspoonful, stirred in a cup of hot water, makes a delicious beverage instantly. 30c and 50c tins.
The cost per cup of both kinds is about the same.
