Prevent Diphtheria.

A sore throat is a good breeding place for diphtheria germs. Protect your children by never neglecting a Sore Throat. You can wisely depend upon TONSILINE. Give Tonsiline upon the first appearance of Sore Throat—don't give Diphtheria a chance in that throat in its weakened condition. When TONSILINE is swallowed it comes directly in contact with the diseased surface and induces a healthy condition of the membranes—then the system can better defend the throat if attacked by Diphtheria germs. Keep TONSILINE in the house where you can get it quick when needed. 25c., 50c. and \$1.00.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT DANDERINE

Save your hair! Make it soft, fluffy, lustrous and beautiful. Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair, and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.—Adv.
